```
                                              FPS = 506, SFPS =   0, PING = 180, KBPS
```

Admin Message from Host

Connection to server has been refused:
The revision of TT 4.00 you use (based on r4914) is not
compatible with the server (based on r4650). Please
make sure that both you and the server are up to date.

Okay

The error message says it all really, your version is incompatible with the version the server is running.

Netcode changes between TT builds mean you can't join a server running a different 4.0 version than you. Wait until they update their servers to beta 5 and, in the meantime, play in servers that are up to date or not running 4.0.
