Hello , im here just to say few things .

Why you people do you think if you update to new scripts no one cheats that it just on your mind . Maybe this scripts it just for ordinary players or new players BUT NOT FOR ALL like MODS or WOH are bosom friend with mods.

And woh are in renegade community for a years they help each other to crack this scripts and they can still use cheats evrybody .

I play renegade for a few years and i see the reality .

There need somebody to clean all this rubbish up ..

My reason why im here i want to say will be better renegade with out any script and evrybody happy.

AND there are a lot of young children and they cant enjoy this game becose of all this things ..

And im sure there are a lot of kids they BUY the game play few dayes they get banned becose MODS force them to get script

And last thing

The all scripts what i have using for all this time it look for me like spyware , virus or somthing it F.....g up the computer

Slow computer down , game lag etc Thank you for Reading

I think the gist is something like;

"Why are you making these scripts, my clan (WOH) still cheats even with 4.0 and should be banned from all servers post haste. Additionally, I believe your scripts are spyware for specified reason, just felt like writing it."

iRANian one of the mod force kids to get scripts if not he ban them is that true>?

if they dont get scripts it mean they cheats>?

for that i get baned becose i dont get scripts not for cheating

And i will never get script agian to f,.k up my computer

I know a lot less about computer than most people on these forums... yet a lot more than you so
my verdict on your problem is...

kill yourself that you need to chill out and step back... just think are you really doing what you want
to do with your life?

Or do you want to accept the patch and just practice Ren and get better... or move on.

Completely flat map, no cover, random spawn locations over a 500x500 arena. First to 200 kills wins. That's how you prove who is the best 'sniper' (in the renegade sense of the word, as opposed to real snipers who use stealth and kill from a distance).

If he is a programmer and sees the source code then that would probably be a better reason to use it...

I actually prefer sniping in BF3 than Renegade. It's so much more fun (somewhat) actually sniping in a game, rather than sitting in tunnels or around a map hopping around with a sniper like it's a

machine gun. That still is fun, though.
