It happened only once to be so serious and yet so funny! On Hourglass in the middle of the right tunnel with my Havoc, I aimed at the tunnel entrance right near where someone's head would be and fired:

BOOM head shot an SBH Imfaooo!

I am glad that player took it well when I explained to him that it was random. I mean...can you imagine what would have happened if it were some douche player or a nasty mod? cry/ban!

lol!

I love when this happens sbhs always freak out. Specially with a random tank shot to the head. This end up happening a lot on big games where half of nod is noobs running around with sbhs ... Jelly.

Happens all the time haha, mostly due to me spamming ramjet bullets, thanks to unlimited ammo.

Did this one time while I was trying to take out another person. We were a fair distance apart and the sbh walked right in front of the guy I was shooting and I hear a "boink" and then I see a dead SBH, lol'd so hard.

BOOM Headshot!

I often shoot at spots where I know sbhs tend to hide.

Had a few kills however across the field where I randomly hit an sbh in the head.

One easy thing to do is when sbhs cloak up and run out from cover, its quite easy to predict where they will be in 2 seconds, count to to and shoot.

Then there are always the 180 key plus hs, I cool em super cool 180 degrees reflex hs's, but its mostly luck.

I've had a couple double headshots before, and some accidental double kills involving SBHs. Never got me banned or tested since I've been around forever and have a good reputation.

However, I actually did have something happen with a mod on n00bstories back in December '07. On Complex, the GDI Barracks just went down, and I chased Amber's Hotwire (which had just left a recently-destroyed vehicle) with my Sakura to the part where it goes downhill back into the GDI base. I managed to kill her, and then I got !forcerg'd because she apparently thought there was

nobody following her and I had to be using arr gee aych or wallhacks or something (or just mad since I killed her hotty and the bar just died). Haven't tried to go back to NS since.

Perhaps you should try rejoining, I believe all forceRG's have been disabled and the moderators now force scripts 4.0 instead.

haha, my most bullshit sbh kills would have been on complex, i randomly shot at the slope to the hill, hs a sbh, then five minutes later I see the barracks door open, i shoot hs another sbh haha.

Was the same guy too ^_^

I also do it often to sbh faggots on mara, such as speedy and roughnek.

I got banned for *cheat name removed* on Jelly Games.

I got banned for modified objects file due incorrect warhead on the volt rifle I was using on Fnfall gaming.

First one due suspicious SBH kills by me for a while. This was even occuring before Jelly on Fnfall as people thought I had SBH reveal.

In Ren Archive I got a few too many head shots with a raveshaw and RAJBrock started asking me for a bunch of screenshots.

Plenty of times killing sbh as they walk in front of other people...

A few months back I had a triple kill in the Islands tunnels.

Probably Jelly, he used to be an admin. Haven't heard from him in ages though.
