My sound in renegade won't work at all, I think I may have deleted a folder or file that was in control of the sound. If you know anything or able to help, I'm also updated all the way to Beta 5. Thanks in advance.

sigh guess no one can figure it out.

try this.

Start your game alt+tab to mini the game, then click on your speaker in the taskbar then mixer and scroll over and turn your renegade volume up.
