dnacrystal reported this on our forums:

Quote:cripts 4.0 beta5 triggers my antivirus and blocks installation.  
Here's the report:

(Norton 2012)  
Suspicious.Cloud.5

Discovered: September 1, 2010  
Updated: September 2, 2010 12:22:32 AM  
Type: Trojan, Virus  
Systems Affected:  
Windows XP, Windows Me, Windows Vista, Windows NT, Windows Server 2003, Windows 2000

Suspicious.Cloud.5 is a detection technology designed to detect entirely new malware threats without traditional signatures. This technology is aimed at detecting malicious software that has been intentionally mutated or morphed by attackers.

You must have replied at the same time as me, lol

It's been reported before, and since he hasn't updated since 2010, it's still detected on his computer.

^ I agree with that.

Did I just agree with Azazel?
