[View Forum Message](#) <> [Reply to Message](#)

This plugin will set the points and credits a sniper gives from hitting a vehicle to 1 credit and 1 point if they do less than 30 damage to the vehicle.

To install place SniperPointsCreditsMod.dll inside your root FDS folder and add an entry for it under [Plugins] in ssgm.ini.

You can contact me on renegadeforums.com under the nick 'iRANian'.
