Seriously fucking pisses me off...

Sometimes you can wall hug em, but if they are in the perfect spot you can't.

sometimes you can't even check for em without being hit.

Personally I think its a low trick that used to be confined to a small amount of douche clanwars players.

Now anyone does it.

Its a glitch, can be fixed server-side by lowering the trigger radius of proxies a little bit

One of the people that got good over night at clanwars lol.

As for the overhead proxies, I never ran into this problem. Usually I can just disarm them also.

Speak without knowing

He didn't get good overnight at clanwars, just because he wasn't a character that stood out much since he wasn't a mouthy prat.

He started clanwars when he was in the Kobra clan, which was like 5 years ago, and was terrible at first yes, but then he started playing clanwars everyday pretty much for a long period of time with his clanwar partner being prplhazd, you can probably go look at the cw.cc rankings if they date back that far.

Oh look 479 games, not to mention the other nicks he used, along with bot nicks

Mining above doors IS Possible, but very hard. I have done it a few times. Didn't kill anyone with it, but I did give them a major injury.

if you prone/crawl it still triggers them if they placed them correctly.

he did indeed play a lot of Renegade
the thing that caught peoples' attention is that his "skill" came so suddenly

what caught my eye is that his tank shells were hitting people and other tanks before they were even close to there yet
once i called him out on it he then played like a retard, ran around with a repair gun for 5 minutes, and left the game

The fact he was running around with a repair gun was probably just to intentionally seem like a retard to annoy the people who think he cheated, he wasn't stupid, he wasn't doing it to cover up

yeah; for what reason are you all over this guy's cock
it wasn't just on that map alone when his tank shells magically flew faster than tank shells in renegade do

unless you were there with him as he played (not under his desk) you shouldn't vouch for him here

Obviously I can't vouch for him for specific times, I'm just saying that when I played with him, he was good, and it wasn't overnight.

Nice, cant say anything on this forum without someone flipping a table, maybe its why no one posts besides the same bunch

i just thought you should know; that's all

also i'd like to add the following:

kobraops did cheat at one point, when he just got to clanwars

no doubt in my mind, did the shadiest shit i have ever seen on islands vs me and i think it was gotwhiskey

finding stealth tanks first shot every time is pretty cool, but him battling whiskey up close(tankfight) then shooting the complete other way out of nowhere only to reveal my stank with one shot, while i was coming out to help whiskey is probably the coolest i've seen from cptawsome

Just made me really mad... couldn't see any mines, try to crouch to see if I can disarm... so perfectly placed instant death
