The following fixes are included:

- -Prevented players from beaconing the middle to damage/destroy the Barracks.
- -Added a kill zone to prevent the "getting off map" exploit.
- -Prevented players from planting beacons on places you're not supposed to be able to stand on for both team's Refinery.
- -Added vehicle kill zones in front of doors to prevent players from placing vehicle inside buildings.
- -Slightly increased the size of the Pedestal bounding box to fix an issue where beacons placed on certain parts of the Pedestal aren't registered as Pedestal beacons.

For reference, the Repair Depot bug is fixed in 4.0, so that is not needed.
