This plugin will restore the weapons and character a player had before he left the server if he rejoins the server before the match ends. I got the idea from iScripters who told me gzOne/fnfall had this feature.

You can contact me under the nick 'iRANian' on renegadeforums.com.

To install place 'RestoreWeaponsCharacterOnJoin.dll' in the root FDS folder and add an entry for it under [Plugins] in SSGM.ini.
