That Mammy was super owned by the Chemmies on Walls!

I really like a chem sprayer rush. Doing it on Field or Under with a group of you early on can really make a difference.

I would be careful using some fo the skins though. If the server takes a screenshot of you, they might assume you're using some sort of trigger bot or something (although clearly you aren't).

the piss green neon one? a former Jelly mod made it we've hosted, used, and allowed it for years we had a disclaimer that said not all servers allowed the skins that we did, which included a clearscope made by another former Jelly mod

all of that is fair game on Jelly

i just think it's cheesy to use advantage skins and HUDs (cough no one in particular that uses advantage HUDs and cries for 8.7 years about not being able to use building bars while having 100% no reason to need building bars due to hugging in tunnels all game every game cough)

i've been using that small dot advantage reticle and the advantage c4 skins for like a week now

i havent missed a hidden c4 yet and aiming is a lot easier, it makes a world of a difference and i dont understand why they aren't banned, like when someone places a c4 on my arty i can instantly spot them instead of having to take 10-15 secs, ditto with all the other tanks

ps itoxics is invisihugging again and acting as if he doesnt know what it is, ask i0n

yeah he suddenly stopped running 4.0 after using it for more than 4 months on st0rm while he was on jelly and he was actually aiming really good while still playing like a total retard so it wasn't that much of a surprise, same with a bunch of other people like a guy named rvking who was able to detect my stealth black hand 5 times in a row on a complex game, pretty cool also some guy named mh3dh5s or some shit like that who was taunting me because he was hitting me as soon as i came in his reticle, even though he used 4.0 on st0rm for like 6 months and couldnt hit shit

Hi, this is itoxic. Sorry for posting a few months late as I just saw this. But let me put this out there

again.. Back in 2009, we did cheat. We used big heads for the first time ever and we found it kind of hilarious but we do regret it now. I'll admit this again; We did cheat on Atomix and Jelly and even on St0rm back then. We was banned but we made an appeal to Jelly after a year or so and they unbanned us. St0rm's ban list got wiped and we automatically got unbanned and it's their rule that if it does get wiped we do get unbanned. From then we had a second chance and we NEVER EVER cheated again since then.

It's funny how after 2009 (3 years on) you guys still think we cheat. St0rm suspected us cheating again when me and my bro was owning on the server. A really good friend of mine and an old mod on st0rm called nzst0rm told us St0rm were monitoring us a lot. He left the st0rm community at that time as he quit Renegade but he still had access to the staff sections and stuff. After months of monitoring, a mod finally came out and said 'WE ARE CLEAN' when a lot of people accused us of cheating on the server.

I don't know if you jelly people remember this but one time I went on your server and got like a 50+ kill streak and 1 death (yes 1 death) on Walls map. Loads of people reported us and some of you mods were spectating us/monitoring us. What did you find? nothing because we wasn't cheating.

After st0rm shut, we both moved onto Jelly. I don't know where you got this 4month use of TT and then we never used it again from because that is bullshit. I used Renegade Resurrection most of the time on st0rm because it was easier to load servers and the game. We did use TT at one point along with Renlist but it sucked (I don't remember why). We only ever started using TT properly when we officially moved to Jelly after st0rm shut because jelly requires TT 4.0.

Sorry for writing so much, but I just get the impression that most of you guys think we still cheat. I am itoxic writing this and I hardly play Renegade anymore. My brother itoxics is really active at the moment on the Jelly Marathon Server. Go and spectate and monitor him as much as you want, the game play you see is the same as you would see us back on St0rm. He is using TT 4.0 as I type, is he still 'sucking dick'? and @Iran, stop lying, really, we have never played shit on st0rm and have we really used TT for a whopping 6months ON st0rm?! That I don't recall. You clearly have never played against us BOTH properly on st0rm before.

We was stupid 3 years ago. We were more mature after our unbans 2~3 years ago, we know what we did wrong and we are making the right decisions now after our unbans. You can hate on our past but don't use it to judge on who we are today. If you want to know more about us, speak with the St0rm community mods. They have been monitoring us for most of our time on Renegade and knows us really well. You clearly don't know us @Iran so who are you to judge?

P.S about the hugging, that is sorted now as I was totally not aware of the invisihug being banned on Jelly.

Go ahead and speak to them, no one is stopping you. Yeah we were forced to use TT 4.0 again when we moved to Jelly, and we are and we are still kicking ass. Well not me exactly as I don't play Renegade as much anymore but my brother, itoxics. I'll reiterate, go find me some solid evidence before you mumble. If you want to bring up this invisihug biz up again, then go fraps him then? What's so hard? You love to accuse us for a shit load of things but you can't seem to back them up.

Not like I'm that good either, but I have never once noted either being particularly exceptional at Renegade. I was aware of the whole 4.0 and cheating at St0rm thing though. The only trouble Jelly has had with itoxic/itoxics recently is itoxics baiting H3adsh00t (I wonder why anyone would ever do such a thing), and we know what happened to H3adSh00t haha.

Sorry but I just gotta post this. We have never ever said we was a 'pro' at Renegade or a better player than anyone else.

It's quite funny Iran how you are making us look like we've cheated again. Do you see itoxics playing REALLY shit atm? Do you? What do you see in an average player, 100 deaths 0 kills? He's doing better than average at the moment in my eyes. We have a life to take care off and things are not the same as it used to be. We are not all nerds on a computer like you bashing the forums and playing games 24/7. Just keep an eye on itoxics from now on if you have your suspicions.. See if he cheats, see how he plays and compare that to when he had scripts 3.4.4 if you remember. The game play is all the same and don't come up with some lame ass bullshit saying he's doing bad now with TT 4.0 because he's not. Not to boast, he gets at least a recommendation from most games most of the time. What do you expect from us? If you want, go record his score, recs and kills each game if your that sad. See what you'll get and compare that to BAD.

Also before st0rm shut, we didn't really play Renegade for a bit anyway. When we came back and joined to play Jelly, someone said "why so shit now itoxic?" and the convo went on.. that was from our first game back too and this was from months and months ago (is that the period you are referring to?), if you have logs as far back as last year or so, it will be there. Just because we played good back in the days doesn't mean we will play good all the time. We have our good and bad games.

P.S This is all facts. I'm serious. I have no reason to troll like you Iran.

Anywaay, please, elaborate on 'everyone' (I'll love to see the list). You love to accuse us for a lot of things Iran but the funny thing is you can't seem to back them up with anything. Your theory is meaningless. I can't remember why we(?) switched to 3.4.4 on jelly then back to 4.0. But we definitely wasn't cheating and you make it sound like we are. It definitely wasn't both of us because I don't remember changing any of my Renegade scripts until Jelly Server forced it or you can't play.

@Ethenal no one on Jelly has any problems with us as far as we know except H3adsh00t, Iran and his bum buddies. itoxics is busy nowadays but Iran seems to expect a lot from us when we do play.

There's a huge difference between playing everyday and once a week or two.

If Jelly suspect us cheating, they are open to monitor us when ever they want. They won't find anything on us like st0rm found nothing. What makes you so special Iran?

Someone please lock this thread now. Sorry for ruining it @Major-Payne. Your video was good btw

P.S you can say whatever you want Iran, it's fun to read. Accuse us properly when you ever do find real evidence that itoxics is cheating again.

Please, stop making me reply to you, it's unhealthy for my keyboard. Lol. To be honest, I can't remember. All I remember is I used scripts 3.4.4 ALL the time since I was on st0rm, I never updated to TT 4.0 until I came to Jelly where the server forced it on me. I did use TT 4.0 once with Renlist (for like a few hours or prolly a day, cant remember) but I had some problems with it that I can't remember at all. I changed back to 3.4.4 anyway and used it alllll the way until Jelly. So stop saying BOTH of us. My bro probably updated earlier than me. I don't know why he changed back to 3.4.4 according to you, you got to ask him that. And have we played during the last few weeks on st0rm? huh? I remember quitting for a while, found out st0rm are shutting their servers, I had to ask the mods there why, and then moved on to Jelly after a while.

+EVERYTHING I typed is a fact. Please state in your next post which part of all my posts I'm lying about (let me see them, you also haven't produced me the list of people that think we cheated again too (still want to see it). Go ask around about us if it makes you happy. And put it this way, itoxics started as a regular with 0 recs like 6-8months ago. He has 900 or something recs now. Did he cheat them too?

that's from late november last years, around 3 months or so before st0rm shutdown, in between both of you were playing quite a bit too, hence why I knew you guys were shit at st0rm (and still are with 4.0 on, like the other people in this thread already contested), I didn't play at st0rm before they ran 4.0 which only started 2 months or so before that topic was made.

Oh good boy. There you go lol. That's the 4.0 and Renlist thing I was on about. That's when I found out St0rm reset ALL stats to null when they moved. You clearly haven't seen our stats on there then. That's when we just joined back Renegade again, did you expect us to be a pro? And

every time you say we are shit, you make me laugh. You are shit, you are not that good of a Ren player, Iran. I've played against you and I've played against people much better than you in the past. I clearly did not play quite a bit after that mate, when I found out my stats were all gone, I didn't play much Renegade. You are lying. I did quit for a while, then I joined Jelly. I kind of remember now..

Anything else?

P.S itoxics is still playing shit right now? oh lord, please go see your opticians. What do you see in an average player then at least if itoxics is shit right now?? 100 kills 0 deaths? lol

you first implied you didn't run 4.0 at all and hardly playd in st0rm before it shutdown (both lies) and still havent said why you suddenly stopped using it and went back to 3.4.4, I mean it would make some eactually sense if it were no scripts.

lol ok, you can say what ever you want. I'll be honest, I can't really remember what happened then, and I am already getting confused so I will stop here. Go read my other posts again, they are no lies. I don't play Renegade anymore, hence why I have like 15 recs or something. Go play with itoxics, you should be able to own him 'easily' if he's shit.

P.S go play more detective shit on me, you are lucky I even remember downloading TT 4.0 and ren list. And it's true I quit after I found out my stats were reset. (thanks for posting that pic)

Edit* I probably uninstalled it because renlist was absolute shite and moved back to 3.4.4 as mentioned before in my other posts. The rest I don't know and I bet your just gonna make up another fake ass story about me. I didn't know you was stalking me back then with what scripts I

was using or not lol and when I played or not. I didnt use renlist for long too. Kinda hilarious. Compare how itoxics is playing now to when he had 'scripts 3.4.4' how well is he doing? Really shit? He's getting recs and stuff, wbu? He must be a god back in the days then..

you're lying again cause both of you guys have played in jelly only a few months ago, and you guys were playing on st0rm actively well into 2012.

i dont really understand why you have to be so mad about it, it's not like anyone who cares about you doesn't already know you two are cheaters, invisi huggers, liars and bad at this game. hence the "ur bad" responses in this thread by people who actually know how to play this game somewhat.

you also seem to be mentally retarded judging from your responses and lack of reading comprehension reading my posts and the fact you suddenly start remembering stuff after i bring it up.

idk what you're "iran thinks we're cheating, you can check us" thing is about, you guys are already forced 4.0 by jelly mods and play bad so there's no point in it, i know you guys cheated between that period cause you guys went from shit to good then back to shit. and the reason i got that link is cause i reported it to a moderator at jelly who told me other players notice the dodgy playing style too, i told him you guys ran 4.0 on st0rm only a few weeks before and he asked if i could some him some logs or something so i did a quick google search, which took half a minute

he also mentioned that a few regulars who also played for a st0rm in that short period said similar things. then a week or so later you guys were forced, probably cause of all the complaints

at one point you (itoxic) had an sbh camping gdi tunnel on walls and you would constantly drop hotties and basics with 4-8 laser rifle shots only hitting their head while i had a jet around the corner, i laughed so hard.

maybe you should be mad at jelly staff considering ur so butthurt over being forced to run anticheat.

the reason your brother has 900 recs is because he plays A LOT, that's also the reason i remember this stuff so clearly (and because the amount of cheaters dropped quite a bit since 4.0).

I think I've used around 150 smurf nicks on jelly and they should have a combined 5000 recs or so? that's over 2 and a half years and i dont play that much

Wow lol. Who's crying now? You should hav called all mods to monitor us then if you thought we cheated or fraps us at least? I don't remember any of what you just wrote, could be true but wasn't cheats but skill. I did 50+kill and 1 death once at jelly when I was still at st0rm, was I cheating? He gets most k/d like 90% of the time, yes 90% and he is playing as he have used to. Idgaf if u have 150nicks, shows how much of a low life nerd you are behind that big box. Anyway enough of this, go play with itoxics whenever you see him. Watch out for his k/d or score, you will be surprised. The skill you see him play at right now is the same you saw few months back. How can he possibly improve at the standards he's at right now? Do you expect him to claim all recs every game? Your a joke and a proper troll, what happens here have no impact on anything from here and out, so really you have lost. You have proved nothing but just a moron who loves accusing someone without real evidence. See where that will get you in the real world if you have ever stepped foot in one. Accuse moar, I've said what I had to say. Oh what kind of cheats was I using exactly? Aimbot? Big heads? I'm pretty sure an idiot could tell If i was usin either of them if they knew I was cheating.

According to him he mostly has double or triple the amount of kills of most people on the server. He knows how to kill and how to play the game. Really all you guys accusations are lame. Just take away from this we never cheated, it's the fking fact after all. You guys saying we cheated just shows to us how good we was the and that you guys were shit then. Honestly. Any regulars who were active when itoxics was active could confirm that. That's where most of his recs comes from. Seems like you guys just can't accept losing. Ok fair enough. When you say not doing the same sort of thing, what do you mean? I know we did not cheat, and even if we did change our scripts back and fourth, you all had the open opportunity to spectate or monitor us. (we was bein watched by a lot of people then). Look how itoxics is playing right now, he's playing out his same style except you can't invisihug anymore which is what he was good at (st0rm allowed it).. Apart from that, I'd say he's doing good atm considering he dont even play Ren everyday anymore. Remember back in the days at wittebolx where u used to mod liquid, we used to play there almost 24/7 then and we was kicking ass together. After wittebolx died we moved onto st0rm where people suspected us cheating. Also there was never any evidence against us in the first place that showed us cheating. St0rm monitored us for months and found nothing. One mod eventually came out to us and even said "we are clean" when people accused us cheating in public chat.

This isn't about how good we are (don't take it the wrong way), we are just proving that what you see from itoxics right now is the same as before. He hasn't changed lol. Maybe a bit but not by a lot. I hope you can see this when he continues to play on your servers next time.

wow.. we HONESTLY never cheated omg. Seriously, why can't you guys just accept it? All this script changing, spectating, why didn't you just fraps us then? Seems like you all know me better than I do and what I did apparently cos I can't really remember jack all. The LAST time we cheated was in 2009, after that we NEVER downloaded a single cheat whatsoever, in fact we never even searched for it on google etc after that.

I won't shut up because I know I haven't cheated. Everything I wrote here is a FACT. What you

guys are writing are assumptions. Iran is just making it all sound as if I have cheated. Like for that hottie scenario you was on about, wtf? Big deal if I probably did take down a bunch of noobs, but why make it sound like I cheated or used big heads?

@liquid sorry, thought you was a mod there because back then there was a command on the server that read !liquidv2 which changes you into one of those modded super chars.. There was !farheen and all that too.

Anyway, I'm done here. If that's what you guys thought of us, good for you. It's not going to change anything from here and out. I don't see any one of you have solid video evidence of us cheating. You won't come close to like st0rm did. I think itoxics is playing good or ATLEAST average atm but you guys will obv disagree and say he shit in comparison to the old days and defend ur little theories. It was good I posted on here, now I know what you guys think of us.

It's funny how you all make up these funny accusations. For starters I hardly speak when I play and I have never died about 20 times against ANYONE when I'm playing properly.

But carry on though, it's fun to read =). You have a lot of friends on here Iran, how very sad.

Now, VuLTiMa or anyone else that's gonna post crap, let me see a screenshot or video next time and post it here of you 'owning' me badly or me saying 'im gonna kick your arse and such'. I wanna see it :3

Ok, let me jog your memory a bit.

C&C_Field

Me: Looooool look at all my kills

(about 50, nothing super special, just a slight boner)

You: You wouldn't even have 10 if I were in the tunnel

Me: Yea ok

Too bad you were on my team at this point so I couldn't prove it, however you came tunnels near the end and racked up about 5 kills against a team with no bar, gj.

That to me really isn't "not talking" ingame is it now.

C&C_Volcano

A few games pass, you appear to have a one sided vendetta for me, targeting me over any one else, Pinball, mrhero101 probably heard my commentary of your faggotry on teamspeak.

I even make slightly asshole comment of "Lol 3-1 itoxics, better get better bro." Referring to the 3 times I killed you to the one you had on me.

If you want to deny it its fine by me, only person you're lying to is yourself

and you say no bar and racked up 5 kills? lmao, keep on going. make it sound like its true. anyone can get 5 kills easily blind folded. makes me really want to see the screenshots and stuff now.

you all seem to expect so much from us both when we play. are we you only competition? like Iran today constantly comparing his KD with mine when i clearly wasn't even playing properly yet i still owned him haha (it was under map, he was hugging like a noob so i decided to run up the tunnels and went after him and owned him, he blamed i was lagging LOL.

so yeah ok, let me see one of your own us hardcore then. don't forget to screenshot =)

holy fuck, butthurt much? didn't even know those rankings existed LOL. where are they calculated from btw? they mean nothing anyway as i hardly try half the time as you can tell.

you was never shitting on me. that hourglass map, what was you doing again? oh yes, hugging

like a bitch. I was toying with you like i did on Under today and gave you shit, i could have played the same game as you and hugged the fk out of you and owned you but i didn't. i just kept going forward even when there were like 4 saks and bunch of sbh fags. on that hourglass map i went around the tunns, owned sbhs, sak and raves and almost killed you. you remember? but i missed you by an inch and your team mate saved your life. you seen that moment LOL

and don't deny that pistol scenario, i owned you then.(if only i frapped it) i laughed so hard, you was so confused and was like 'what you laughing at retard' hahah. acting all innocent and stuff now, funny noob.

oh i'm lying? point out where i'm lying please. Iran can deny the pistol scenario all he wants but he got served with a pistol haha. he was never shitting on me. so far i have never even played Iran 1v1 in proper combat. he always has a wall or some1 with him when i see him. chicken shit.

like in volcano when i shot you iran, you ran back in the tunns with the rest of the saks and sbh fags, where you got cover to avoid me killing you. what did you tell me that time? oh yeah, you

had to fall back and some other bullshit u made up.

try me. i don't recall seeing you in game before. its pretty hard to not miss us as there are both of us active and one of you. i just recently joined back renegade like a month and a bit or so ago. itoxics has been playing way longer than me.

i have not lied in this thread and i'm mainly defending myself here anyway lmfao.

i never said you cannot hug when sniping but im just saying so far EVERYTIME i faced iran in combat he uses a wall 99% of the time. even on walls flying, he uses the ramp as cover (jumps out shoot and jumps back in to hide). i played with iran on hourglass by running forward purposely and he still hugs. no nuts to face me 1v1. yeah go ahead Vultima, say i lied here too because its true and every other shit i typed here is true as well. sorry to dissapoint you =)

Drive people around? I don't remember or recall. 2 years ago I was never even on Jelly until st0rm closed. My time spent on Renegade back then was all on St0rm. Unless you mean someone else idk. Also liquid, I remember your name way back from the server called Wittebolx. There use to be a command called !liquidv2 that changes you into one of those super characters. Do you happen

to be that same person or know the server admins or stuff? (Always wanted to know the answer to this)

@Iran most of that was in reply to you. I was laughing so hard though when I killed the ol'somighty and pro Iran haha.
