So this guy '[GDIOverPowered]Iran' joined the RenCorner renegade server.
Seems like he was able to by-pass the radio command flood detection, and spammed the hell out of his team-mates.

I wonder if this is a client side hack?

Interestingly, there's a thread here that talks about this flooding detection, made by iRANian.

Quote:
Bug from stock.

FloodProtectionMgrClass::Detect_Flooding() is called for both CSAnnouncement::Init() and for cCsTextObj::Init(), but it only does something for CsAnnouncement (radio commands).

The client needs to be fixed.

[GDIOverPowered]Iran IP: 84.26.118.176 FDSID: 15 Host: 541A76B0.cm-5-3b.dynamic.ziggo.nl
Country NL
Serial 6d1b7d64b55acc794ee1489e5e15ec14
[GDIOverPowered]Iran has been linked to 99 different nicknames within the last week and *might* be a nickname spoofer.

Incidently, he left after a minute or so, and then very shortly after, like 20 seconds or so, the server lost connections and crashed.

It's funny how i've been crashing your server for weeks when I wrote this today for raven just for fun. obviously using radio commands crashes a server, especially when i gave this to a few freinds and we spammed 100s of radio commands at the same time on mara a few times over for some laughs and it didnt crash.

are you seriously that retarded lol?

btw jelly mara also lost WOL server connection around the same time

Can't blame us for assuming you're the reason for us going down. You show up once in our server (possibly before with other names) with a client hack and bypass a protection on any level and our server goes down a few seconds are you leave? Suspicious to say the least.. -_-

err not really when you're accusing me of attacking your server for weeks with absolute no proof with a modification i made a few hours ago

it's like accusing someone of murder because he talked to the person who was murdered for 30 seconds the night she got murdered

You can have him, maybe he'll find more exploits and crash your server like last year.

No one likes you .

I seeing nothing wrong when iran publicly posts about the the bug,
gives detail info about it,
and basically tells the tt team how to fix.
He has helped renegade in that aspect countless times.
I doubt iran has been cashing crashes on that server.

Let see, he makes a hack, joins a public server using it, and posts about it on the forums. That
makes it alright to screw up other players gameplay?

you fucking people. if your server can't handle a few radio commands, get a new server.
(just an FYI, I watched him spam the fuck out of this shit on TurboDM and it did not crash it nor decay the gameplay of the server at all. It just got loud)

also, DJ stop pretending you're not a driveling moron.

oh no, being banned from an inactive server!

 this is the best thing that can happen to a server.

lol banning Iran from a server he doesn't play in. I hope you're proud of yourselves

I like the fact that Iran finds these bugs and even patches them or tells the TT team so they can patch them.

Ya he uses it in a public server, but it's not like he does it multiple times. It's for shits and giggles for him but in the end, it gets fixed.

He spammed your server with radio commands, lol big deal.

He's done a lot for Renegade even with the negative stuff he does here and there. This is an example: http://www.renegadeforums.com/index.php?t=msg&th=39663&start=0&rid=2 0487

Where is DJ's server hosted anyways, I thought it was meant to be an EU solution to bad ping, I get 30 less than anywhere else sure(so 170 now), apart from other EU servers where I get about 50 ping

A hack is a hack is a hack. Handing that shit out like candy to players is the same thing as what 0x90 does.
Banned from a server he doesn't play...interestingly enough he did play there and missiondm.
Oh, and *patched*, thanks to reb00b.

also shaitan, you're saying making a radio spam exploiter (and of course posting how to fix it) is the same as making an aimbot? well, I already knew you were a FUCKING IDIOT, so I guess I don't even have to say anything here
As long as we tell TT that we made R-G-H 5.0 it's all good then? Cool story dillhole.
I'd prefer if you didn't say anything to begin with. I feel myself becoming more and more retarded as I read your posts.

It's not telling them that he simply made it, he's telling them HOW he made it. HUGE difference.

THIS IS NOT *cheat name removed*5.0, THIS IS A MEMORY PATCHED GAME2 EXECUTABLE
THAT ALLOWS YOU TO USE RADIO COMMANDS AS OFTEN AS YOU WANT

THAT IS NOT A COMBINATION AIMBOT, PT HACK, ESP, AND WALLHACK THAT
ESSENTIALLY RUINED RENEGADE, IT IS RADIO SPAMMING

IT IS NOT A CHEAT, YOU ARE FUCKING STUPID

P.S. I know for your technically illiterate ass this is probably gibberish, but:

FloodProtectionMgrClass::Detect_Flooding() is called for both CSAnnouncement::Init() and for
cCsTextObj::Init(), but it only does something for CsAnnouncement (radio commands).

The client needs to be fixed.

That VERY SPECIFICALLY tells TT EXACTLY what needs to be fixed (as well as implying that
the flood control should probably be checked server-side, not client-side) - if iran is so fucking
malicious, why is he POSTING THEM HOW TO STOP WHAT HE MADE?

stop pretending you're not fucking stupid, we know it's a god damn facade.

Great, so you're a hero now because you managed to find out how to disable flooding checks for radio commands with what I hope your intention was to get TT to fix that.

You're still an idiot for effectively hacking into the game and testing this thing out for yourself in public servers and pissing people off, on top of that you actually released the thing on these forums, lol - isn't that against forum rules?

Looks like you pissed off some people in Jelly, nice job:

I only assumed it was you because right after you left the server crashes? It was only really suspicious honestly I wasn't really pointing any fingers directly at you.

Either way, doesn't change the fact you're an idiot for testing this out on servers..

You had actual, factual, stuff in there? I'm sorry Ethanol, I was mesmerized by the continued use of CAPS throughout your post.

What's so bad about hacking applications? I recently started doing it too learning reverse engineering, understanding ASM (it's a great way to learn ASM itself). I'm still a huge newbie but you can create cheats and exploits for a lot of stuff if you succeed in it.
At the same time you can create countermeasures for those things if you know how to create them.

Allowed? No.

Fun? Yes.

Helpfull? Depends of the usage.

I don't see what was wrong with the flood control in the first place to warrant such a "fix".

Just sounds like a tool for players to go and annoy the fuck out of other players tbh.

yes! this is awesome! fuck radio spamming haters.

anyways, its radio spamming. Sure, it is an exploit/hack that iDouche used in public servers which he rather shouldn't have, but cmon now it is radio spamming. It doesn't crash servers. On that same premise, ethenal and the rest of da peeps who are defending iran yet still believe in "cheater will always be a cheater"(i.e. azazel), i hope you see the hypocrisy.

Looks like we actually used to permaban some people from Black-Cell for doing that in 2006. Ah, the good old days of being a temp mod. Radio/PM spam might not be so much of a problem now as it was back then, since everyone had crappier computers, slower internet, and less powerful serverside protections.

Also here's the video since my BC FTP portion's no longer up: link

No, I don't. I actually had to try to make sense of that post, honestly.

I just find it funny that iran supposedly just released R-G-H5.0. Seems like a massive downgrade in features from the previous aimbot, RGH, ESP, pt hack, wall hack, etc. to simply allowing you to Take The Point as much as you want to... of course, Jelly has already blocked radio command spamming server-side with the simple OnRadioCommand function implemented in the plugin interface so graciously offered to us by the TT team.

Cry more

Make a filter using the RadioCommand hook in TT or an auto mute and it will end your bitching. My goodness. People get mad over the dumbest shit.

He found something in Renegade that was exploitable.
He released it.
We know how to find the exploit.
We patched it.
You move on.

It's radio spamming, not CrashRenServer.exe or R.G.H. Iran-Edition.

Method one:
Quote:
<CloudyServTest> [Radio] Xpert: Get in the vehicle!
<CloudyServTest> [Radio] Xpert: Get in the vehicle!

<CloudyServTest> [Radio] Xpert: Get in the vehicle!
<CloudyServTest> [Radio] Xpert: Get in the vehicle!
<CloudyServTest> Host: [CS] Xpert has been blocked from using radio commands.

Method two:
Quote:
<CloudyServTest> [Radio] Xpert: Get in the vehicle!
<CloudyServTest> [Radio] Xpert: Get in the vehicle!
<CloudyServTest> [Radio] Xpert: Get in the vehicle!
<CloudyServTest> [Radio] Xpert: Get in the vehicle!

<CloudyServTest> [Radio] Xpert: Get in the vehicle!
<CloudyServTest> [Radio] Xpert: Get in the vehicle!
<CloudyServTest> Host: [CS] Xpert has been kicked by CloudyServ for: Radio Command spamming.
<CloudyServTest> Xpert has left the game.

Yay problem solved, along with other servers finding their own way of blocking it.

Move along.

And I'm sure TT will fix this aswell.

Since when was it fun to find exploits and then use the exploits to annoy the crap out of players in a public server?

jelly didn't handle this very well tbh, but what do you expect when they're working with Iran.

Hopefully if he finds anymore exploits, you'll open up a locked server, so players wont have to deal with this shit. It seems some of the Jelly trial moderators have more sense than the actual mods in this case.

Apps, pretty amusing how you hit the nail on the head.

Croatoan wrote on Sat, 25 August 2012 04:45It was fun to cheat my ass off and annoy the crap out of players and moderators in public servers.

But I didn't handle my bans very well tbh, but what do you expect? I totally screw up and get caught red-handed in one of Renegade's most hilarious FRAPS videos of all time!

Hopefully I'll be able to make people forget that I used triggerbot and probably an assortment of other cheats by changing my name and hounding other people for making cheats. Even if their motive is positive and helps others.

Sure, I could have opened up a locked server, so players wont have to deal with my triggerbot and other assortment of cheats I likely used. But that wouldn't be fun because it wouldn't ruin other people's time and give me an advantage.

I appear to have no sense whatsoever by cheating a tonne but then assuming this hackneyed, anti-cheat, white-knight personality. I take the moral high-ground when someone else hacks, even when they show people way more important than me how to do it, and how to fix it for the betterment of the whole community.

It's pretty amusing how I am so mad at Renegade that I am willing to chastise people that are improving the game, while I spent all my time trying to ruin it for everyone else.

Let me get this straight,

Iran modifies his renegade client so that he allows himself to bypass the radiocommand limit and now people expect the TT team to fix this exploit? Why would you fix somthing that was already fixxed in the first place. That would be just a waste of time if you ask me.

Also the !mute command could be used afaik

it was never fixed because it's a client-side check that's easy to patch out, adding a server-side check takes 20 minutes to program

it did take raven 3 tries to filter out the invalid radio commands him and me where playing around with though, serves him right for being a party pooper

It was most certainly not "fixed" in the first place, this is the same kind of shitty Westwood programming that allowed you to send chat messages that looked like they came from other players in the server. Yeah, sounds extremely easy to prevent, but tell them that!

I really fail to see how spamming radio commands is attempting to crash the server.

If somebody was doing that on Jelly, I wouldn't do that - I'd fucking mute them. Simple as pie.
They'd never be able to do it again.

But I guess that's why Jelly still reigns surpreme.

Quite frankly, I don't know why this kind of thing wasn't blocked in the very first TT release. Whitedragon was testing methods of blocking stuff like spoofed kill messages for his DragonGuard serverside cheat detection program all the way back in 2006 or 2007.

havoc9826 wrote on Tue, 28 August 2012 06:00Quite frankly, I don't know why this kind of thing wasn't blocked in the very first TT release. Whitedragon was testing methods of blocking stuff like spoofed kill messages for his DragonGuard serverside cheat detection program all the way back in 2006 or 2007.
Spoofed kill messages etc are blocked in BIATCH as well and thus in TT as well. However, different radio commands apparently not or that got lost in porting BIATCH to TT.

Edit:
Bit lame, boasting about a piece of software that never got released. Even more so when it took us a couple of days to create the first version and within a couple of weeks we were testing it on multiple servers. Not much after that we released the first version.

Yeah, I know right? However, it's so much more fun to permaban people for pitiful offenses than
actually do something that takes care of the problem. You have to remember, this is Renegade -
and all moderators of inactive servers love to showcase the throbbing veins of their e-penises and
kickban people for using R-G-H 5.- ahem, spamming radio commands. It gets them laid in real
life. A lot.

Stop using my term you wanker. Lose the hostnick, lets see how long your retarded server stays alive. With shitty mods like your own, I don't think it will for long. It'll be just like <insert some random name here>. *dead*

I find that whole thing laughable there. You guys give your little cheaters second chances, third chances, fourth chances...and allow cheaty skins that used to be banned. The "inactive servers" as you put it, do their best to get rid of cheaters.

Wow, I forgot people LIKE to play on servers that they're banned for life on for making mistakes, instead of being allowed to play after a reasonable amount of time under the conditions they run 4.0 (if they were banned for cheating, anyway). Or of course, for instance, simply muting people for spamming radio commands instead of permanently banning them for "crashing the server" (but of course, our dedicated server isn't so puny as to not be able to handle radio commands, lol). We

COULD do that, but we actually enjoy having a full server. Evidently, we're the only ones.

Also, we've always been quite lenient in our allowance of skins. GrimmNL (an old moderator) even had his own skins section of the website in which he made/uploaded many skins that would be considered blatant advantage skins on other servers. I suppose that's bad, but evidently the players appreciate it...

I think you got "removing cheaters" with "removing players." You know, hence my use of the term "inactive."

And guess how many of the people you quoted are moderators that are fully capable of, within their power, muting any offenders (Lurker immediately stated his intent to do so)? I'll tell you. Six.

Oh, and our inferior moderator staff doesn't kickban for it. They mute. Because they're not fucking stupid, like you.

I will point out that you keep saying "those of you who like it over there" like that's a small number, excepting our active forums and our... you know, full Renegade server.

BUT OF COURSE THAT'S JUST OUR HIGH HOSTNICKS /shaitardlogic (can you call it that?)

Does anyone out there want to make a crash_jelly_server.exe, then link it here to the forum? As long as the source is available(so TT can fix it of course), and you show how it's done(step-by-step please), it's "ok" by Renforums standards.

You can remain anonymous if you prefer. Just shoot a PM to any number of the IRC's I may be on. You'll get full credit of course.

By the way, I love how you assume I've kicked or banned anyone.

To be fair, RenCorner had a fix for it that night.
However, it was very good of Raven to release a plugin for it for all the TT server owners. He shouldn't of have to do that, but it was nice of him to do so.

It's not entirely problem solved quite honestly, because there are servers out there that do not run TT. They can't just be dismissed.

I don't blame them for banning iRANian. He hacked his client and griefed other players with radio spam. After he left of his own accord their server went down. They thought the two things might be related, as they were not aware of exactly what else iRANian was/could of been doing. At the time, all they knew was some guy joined with a hack that worked with TT, and soon after heleft their server went down.

Yeah, I did quite a double take when I saw Gohax was abusing that shit. I had no idea he would give it to HIM of all people (who has been muted many times for radio spamming WITHIN the flood filter, no R-G-H 5.0 required). But alas, problem is solved now.

Watching a guy who works for Wal*Mart's automotive department trying to talk down to anyone about being "coked-out" is sad. Even more so when you consider that he's probably on major government assistance due to his low income, and should be drug tested according to a lot of state legislatures.

Watching a guy who works for Wal*Mart's automotive department trying to talk down to anyone about being "coked-out" is sad. Even more so when you consider that he's probably on major government assistance due to his low income, and should be drug tested according to a lot of state legislatures.
So...does this mean I can go back to ruining your pretty topics? Make a new one, I'll be sure to visit them with a higher frequency.

Are you upset that noone likes your piece of shit maps? Every time I've ever seen Glacier_Shitty_Flying.mix come up it tends to empty out half of the server. The ones who mainly stick around are diehards.

I've never taken assistance in my life, what about you college boy? Government fucking hand-out paid your way.

"College boy" is an insult now? Apparently you don't realize how expensive it is to pay back
Federally-backed loans. ~6% on any sum over $20,000 is a substantial amount of interest - trust

Just as they're paying for the Wal*Mart you work at.

http://www.ilsr.org/new-study-finds-walmarts-miserly-wages-cost-taxpayers/

Quote:The study, "Hidden Cost of Wal-Mart Jobs," found that the average Wal-Mart worker required $730 in taxpayer-funded healthcare and $1,222 in other forms of assistance, such as food stamps and subsidized housing, to get by.

 Even compared to other retailers, Wal-Mart imposes an especially large burden on taxpayers. Wal-Mart workers earn 31 percent less than the average for workers at large retail companies (more than 1,000 employees), the study found, and require 39 percent more in public assistance.

 Employees who've been with Wal-Mart for at least a year (about 65 percent of the company's workforce) make an average of $9.70 per hour, compared to $14.01 per hour for workers at other large retail stores. In addition, 23 percent fewer Wal-Mart workers are covered by the company's health insurance plan than employees at large retail stores as a whole.

1. Going through repetivtive motions.
2. Talking to yourself about yourself in the third person.
3. Multiple personalities?

Watch out, someone might think you are mentally unstable if you share what is going on in that mind of yours.

Are you still mad that the girl you hit on, whiteknighted, and invited to your clan turned out to be a transvestite?

at the moment, my own community seems to be doing alright
i also care about Renegade as a whole
that's why i don't take shaitard's complaints too seriously
he's angry that he wasn't given a high hostname, but it was always for the best as far as i'm
concerned

that's just the way the cookie crumbles, or the tiberium grows

It's always funny how you try to get personal, when all the stuff you have is things I've said to yourselves, or others. I guess you have a hardon or something, I don't ask people about you guys. Lol.

Now back on topic: isn't it funny that iran is trying so hard to throw dirt on reborn? I find it odd, since iran's on that list himself.

He's got access to TT, he likes making cheats, he likes causing strife, and the best way to take the heat off oneself is pushing it towards another.

That never happened. It did for you you though, and I'm pretty sure I still have those logs of when she said it.

Yeah well you say a lot of things.

Also I know exactly what logs you are talking about. They are the same ones I pastebinned back then, and showed everyone.

Too bad they got deleted, I would be more than happy to have you paste them here. I need a good laugh.

But really though, why'd you suddenly start hating her after rushing to her defense then?

Maybe your time would be better spent with learning to turn triggerbot off when afk instead of banning everyone who is sexier, smarter, and better than you.

I'm banned from there for a good reason and I'm perfectly fine with that. I have no desire to play there as I despise marathon, not Jelly.

Sticking up for Jelly? raven has been a part of many communities. I'm "sticking up" for a individual - while he may be a part of Jelly that doesn't mean much to me. I have friends that play and enjoy there time there. Plus they've made a lot of good decisions lately from running 4.0 serverside to addressing the lack of moderators issue. Plus liquid isn't so bad either.

Az and I are on good terms... it's called not being a douchebag; nothing you would know anything about G1D! Just because one person may not like (or in this case, be banned from) a community doesn't mean they can't get along outside of it.

I think Iran player by using 20 nicks just cheat with new name on all servers and that he might be the *cheat name removed*maker.

Currently on jelly right now, he has more than 140 kills and he does get mvp back by sniping everytime a GDI player gets above him.
He sniped 140 times with a HS. Even the best player in the world can't do this. Also his nick right now is "intherealworld" but he changes it a lot.

I check the answers and I see :

Insults
Insults

Accusation of cheating (lol, I am one the first RG user and I helped on it)
Insults

But nobody explaining why a guy get 140 Headshots. I asked several player in the game and they all told me it was suspicious.
After that I went on rencorner when I magically got a K/D ratio of 11 and nobody was able to own me. I play since 2002 so I got some skills, not the best as I don't play everyday. It felt like no cheater was there. The most kills a player had there was 55 but after 2 hours of play which is normal. Also the server tells when you do a headshot or not.

Why don't you add such a feature on Jelly ? It tells also who use script. I mean, a cheater was caught real quick there. He was having only HS on simple infantry with havoc. Who does care about HS on simple infantry except an idiot who forget to turn off aimbot ?

I have seen so many people backing the supposed "good players" and yet they all joined the game in 2010... when good cheat was available to them.

If telling an opinion gets me banned from Jelly, then you just prove me right. Insulting me is proving me right. So go on. And ehh, stop sucking cock of cheater, you are fat enough.

Good.

I propose a fair deal :

Iran, would you Fraps a game where you snipe ? We will be able to see if the aim is natural or not and if the dot is red when you shoot. If the video shows you having tons of kills and if we can clearly see there is no "help" on aim, I will believe you are that good and admit my mistake here in public. Fair deal I guess. Ball in your camp.

Besides, having different names is piss easy. Direct connect. Not sure if my IP is still the same considering it's dynamic in a range I recall. If you whois my IP you'll get over more then 100 nicks too; I like to smurf.

I just hope you are 'just a good player', i mean a kd of 75.0 is something we dont see often in regular renegade matches within the timeframe you were playing and getting kills anyway.

I am not saying we will ban you just for that, but if we suspect you are cheating we will ban you. Even if we cannot prove it.
Although that does not happen very often that we do this. You'd be the first actually.

Most players during that game thought you were cheating, as well as a bunch of our moderators. The only reason we did not take any action (yet) is because we do not have proof.

iFag can be banned just for beeing a pain in the ass, that along qualifies him for beeing banned, you dont want Pricks like him beeing a regular on teh Server, trust me :/ Besides that, using TB cant be catched anyways therefore good luck in trying to get proof on him, it wont happen :/

with Iran, it's more likely he found a way to modify his game or connection so he can get easier kills the majority of the time
watch how much he glitches and warps when you play against him - he doesn't seem to have any trouble hitting anyone else while apparently having the laggiest siberian wasteland connection on Earth lol

I wanna pick this thing up and give u a reply as to why this wont happen. He isnt using AB, he is using TB which cant be seen if beeing used ingame. He use it from time to time,not that often,but you can actually tell when it s happening. iFag himself is far away from beeing a good regular sniper like the ppl he tries to blame for invihugs like M3 lately f.e. Hes an aveage Player without beeing specified to a specific way of playing. Thats it basically. not much more to say, just the more you complain bout him, the more he gets a boner from it. Deal with it the way it is,as long as there is no way to discover TB an easy way, he will continue playing the way he does.

1. You're terrible at ren

2. I could probably outsnipe you and I'm terrible, and even if I couldn't beat you, it wouldn't be by a ridiculous gap so by you saying someone is terrible it means nothing. (a noob calling someone a noob basically)

3. How can you tell if someone cheats when you're never ingame or is this some super secret server that I have never heard of?

you, as a player, are what i'd call average (all bullshit aside)
Vultima said the same, and i don't even know the guy

just put too much strain on them, my kneecaps are turned inwards a bit (think its called
"knock-knee" or something) and all the muscles that are turned inwards are strained. it's fine atm
just hurts like hell when walking, should be over soon

Terrible headshot rate too,!

cause it uses server side headshot detection instead of client side detection of headshots, the game never sends headshot info the server except if the player is running 4.0 and the renegade ladder doesn't use that info from 4.0 players, it uses the server-side detection of headshots

the fact that its so low on my stats page probably means its actually quite high!

He didn't have any skins in those pictures. I did see some textures, though.
