not a big deal ...it just that even I was playing in tmx around the same time and was raped by bevis as always ... tbh he kills me in lots of games and other servers ..

so I for one would also like to know if he is a honest player

so was many others ..

being around this game for so long an with a good memmory. it is crazy to look around now and see that most guys who have been done for cheats are now infact..mod.s admins or owners of servers .

wonder if anyone will catch mikey as it is clear he is also useing the -[HOH]- cheat pack and anyone notice the new memmber -[HOH]-leon ?? one day average player the next a clan member who only snipes and get loads of hs ?

It's well known what my history is, at least I don't run or hide from it. Why else would I try to get unbanned from Jelly even if I have my own server to play at? lol

yeah right... cool story bro . your a past cheater who also stole other ppls ideas and passed them of as your own . who ranaway from renegade for a time then came back with his own server . and now thinks he has a clean slate. why would jelly un ban you ? they know that you or your ex-storm team are attacking them they just have no proof yet. and unlike me are worried about saying it in a open forum with out the said proof..

next you reply with ..it,s not me why would I .it could be you

even I have seen when ultra and jelly crash that lots of players migrate to rencorner .

and again I have a feeling we will come back to this post where I get to say .... I TOLD YOU SO

Hey Beavis

Basically they are complaining about you using Cheats a few Months (Years?) ago, my advice for you is,dont even take part of this conversation, it will end up in Jelly regulars bitching @ you, when they are themselves not a bit better. Ignore it and you will be fine
