Ok, so I moved away for school and had my bro text me my old Serial Number. I downloaded the game online and am trying to install it. Again, I have my original SN, just not my original disc at the moment, but the raw .iso files.

YES, I have tried in all types of Compatibility modes, XP and even Win 98. Anything else I can try? Keep getting this error:

Haha, figured it out after 2 whole hours of pain!

I had my laptop plugged into my external monitor and for whatever reason it just did NOT like that. Unplugged, just ran the setup.exe as admin and we're good to go. See you guys on the battlefield!
