Hello everyone,

as you may know we are running a NewMaps 4.0 server which has only New (or old lol) Maps in rotation.

The server has been running great and many people love the new maps.

I've made a few maps myself to add to the rotation but they are not the greatest but very much playable though.

I personally luv new maps and the more the better So, here comes:

I would like to see a new good map on our server again, either defense or no defense, flying or non-flying.

If there are any mappers left in the Renegade Community: Please make a map

Submit your map on our forums at MPF Forums

We will select the best map (decided by vote) and that person may choose a game on steam at the price of 50 euro maximum.

Thanks and Good Luck

Greetz zunnie / <http://www.multiplayerforums.com>
