Hello,

Where can I find information on modding whit TT?
The scripts used to come whit a readme for all the scripts but I can't find that anymore.
Also, where is information on hud.ini?
I tried searching but I couldn't find anything.

Taken from the 4.0 RC1 scripts source:

```
File Attachments
1) readmes.zip, downloaded 164 times
```

There's also online documentation, but it's still being worked on so a lot of the scripts are undocumented so far. If there's anything specific you want to see documented let me know and I will try and update it for you.

http://doc.tiberiantechnologies.org/scripts.dll/modules.html - Scripts sorted into groups - most are not sorted yet

http://doc.tiberiantechnologies.org/scripts.dll/annotated.html - List of all public classes, which includes all scripts

Example of a documented script;
http://doc.tiberiantechnologies.org/scripts.dll/classdp88___a_i___turret.html

It might be a good idea to have a link somewhere to the doc site. So modders can find it. Ore did I miss it somewhere?

Feel free to add it to the wiki in a sensible place.
