I want to edit the stock 4.0 Renegade hud, mainly the green color parts of the hud, so the Health bar, and Weapon image..

here is the image of the modified stock hud that i want to change the color on..

is this possible without making a whole custom shader hud or is that the only way to change the default green color..

you just edit hud_main don't you or the icons.
Been a while since I looked at hud related stuff.

nevermind i had kenz3001 create me a custom 4.0 hud using stock renegade hud, it's fully customizable via hud.ini, meaning colors, text, etc will be customizable to your own liking..

one edit to hud.ini i can swap to another hud

Still working on it! Trying to get it to the same specs as the stock hud_main.dds, I will release this 4.0 hud once i'm finished tweaking it
