I need a test map with the following on it:

- 1.Lots of flat space to test things on
  - 2.Working Weapons Factory/Airstrip
  - 3.Working Barracks/Hand Of Nod
  - 4.Everything set up so you can buy (from the weapons factory/airstrip) and properly use helicopters on it (e.g. flight roof, correct settings in the level for purchasing etc)
  - 5."Working" helipads (in that they have correct terrain/aggregates and have correct "generic building" controllers set up and can be destroyed and etc but with no special logic attached to them)
-
