Hey, I'm trying to figure out the names that are registered to a serial, which you used to be able to do by going into chat and typing /nicks. However this doesn't seem to work anymore, does anyone have any idea how to find out what nicknames are registered to your serial?
Also is there any way to recover deleted nicks?

I believe you can check them via the Strike Team web site.

I can recover deleted nicknames as an XWIS admin. I can also tell you which nicknames are linked to a serial, but I only have access to hashes so I'd have to kinda figure out which hash is the right one.
