When I use the following executables:

C:\Program Files (x86)\EA Games\Command & Conquer The First Decade\Command & Conquer Renegade(tm)\Renegade\Renegade.exe

or

C:\Program Files (x86)\EA Games\Command & Conquer The First Decade\Command & Conquer Renegade(tm)\Renegade\game.exe

I get this error

I assume it has to do with the latest 4.1 RC3 patch as this didn't happen with 4.1 RC2.

I CAN play with the game2.exe file path but it gives me an extra dialogue box to close down.

Have you tried reinstalling RC3? There was an incorrect patch up for a few minutes last night, you might have gotten the bad version.

Reinstalling RC3 worked. Thanks.
