hello everyone. i don't think anyone remembers me because you either don't care or because i haven't done anything "great". well i made the blue light and crystal skin for the laser rifle. i've quit renegade because of the lack of support from EA. it got boring kinda fast. no i am not returning.....well maybe after this questions are answered:

- 1) how is the tiberian sun mod comming?
- 2) how is the red alert mod coming?
- 3) is there anything new about renegade other than crappy ass patches and the capture the flag thing.
- 4) what the hell happend to this forum?
- 5) why is the official forums now hosted on n00bstories.cm?

well that's it for now.

i'll anwser what i can.

1-not sure how thats going (is there even one in progress?)

2-good as far as i know. i downloaded the beta and its pretty bad ass. as far as i know they're working on the bugs, ACK is working on some more maps, and someone else is working on the new weapon models.

3-ACK and others have made a shit load of new maps you can download them at <http://www.renmaps.com> and the pits server plays a lot of the new maps (whichever ones have the highest rating by the users)

4-not sure what you mean by this

5-when WW shut down they gave the official forums to n00bstories

1. The CNC Reborn mod (Tib Sun) is coming along great. Go here for more info.
 2. What he said.
 3. What he said.
 4. Yes, the forums are now hosted by n00bstories.com due to EA closing down and consolidating Westwood into a larger studio.
 5. Same as #4 and what he said.

man i am but WW and EA are both faking up with every game they make...
they dont concentrate on one game...
they dont make new OFFICIAL maps for renegade unlike those NONE OFFICIALS which have faking errors and bugs and all those sh1t in them
they dont update the game normally like now there is an aimbot out for renegade which one of the users are (R4IN)
they dont update the guns, no new guns.. all boring guns
they dont update the vehicles, no new vehicles, no new flying vehicles.. all old and boring ones
they dont make no other game type, such as capture the flag, Slayer, last man standing and others (OFFICIAL CTF)

they dont update and fix the lag issue which it is in game spy and In WWO
and you want me to support the community....

If EA would not have bought WS in the first place, Renegade would have probably been tons
better than what it is now. EA made WS push Ren inot a pre-mature release, resulting in only one
MP mode (C&C Mode), bad netcode, and not bfinng able to live up to it's expectations. WS was
known for puting time and a lot of work into their games, EA threw all of that away. You could tell

because of Tiberian Sun. Just look at it. I'm not saying it's not good. It just did not live up to what it should have.

If you think WS is the one's fucking up, your wrong. EA made WS fuck up. It was EA's whole intention to make WS look bad so they would have a valid reason to close them down and consolidater them. Now if EA would not have bought WS, things would be a lot more different. Less bugs, more official maps, better game, better netcode, better support, just all around better. If you wanna thank someone, thank EA. Remember their motto:

GAY Games
Fuck up everything

1. My mouse is very clean.
 2. I'm not bored with Renegade. I don't want new flying p3n1s m0bil3s and a map of some hawaii beach, because guess what, thats not C&C:Renegade. Renegade has a theme, and when you put in models of F-16's and shit like that, its not a C&C game anymore. This game isnt like Quake3 or Halflife, where you have absolute control over the engine to make any kind of mod or total conversion you want. Renegade is Renegade, love it or leave it.

This game was based on C&C Tiberian Dawn. Where in that game did you see a flying p3n1s m0bil3? All the vehicles are here. The guns in this game are awesome. This game takes skill, just because you don't have it doesn't mean that the game sucks. Trust me, it's just you.

no new guns, same old guns? wow, you must not support ANY first person shooter ever made! I mean they never get any new guns. Infact you must not support ANY game made! I mean, they're all so boring, same old items, same old storyline, never being updated with new ones. Hey here's an idea, go program your own game where they never have the same weapon/vehicle/whatever twice! :rolleyes:

Police you are by far the n00biest fucking retard around + you cant spell.

I would just like to remind you that there is no working aimbot for renegade i thought the whole community made this clear to you in the last flaming session we had.

If you dont like renegade then leave i am sure the forums would be a better place without your negative crap i know at least 10 people that have come back to renegade in the last few weeks and the servers and stuff seem to be picking up again.

Besides me just generally hating you for trying to give me a bad name i now hate you cause your a 11 year old n00b who thinks before he speaks do the community a favor and go and end your life in the most painfull way possible and leave us be to enjoy the most original, revolutionary game that is C&C Renegade.

ImDgr8one,

I have to correct you. Ain't is a word.

One entry found for ain't.

Main Entry: ain't

Pronunciation: 'Ant

Etymology: contraction of are not

Date: 1778

1 : am not : are not : is not

2 : have not : has not

3 : do not : does not : did not -- used in some varieties of Black English

usage Although widely disapproved as nonstandard and more common in the habitual speech of the less educated, ain't in senses 1 and 2 is flourishing in American English. It is used in both speech and writing to catch attention and to gain emphasis <the wackiness of movies, once so deliciously amusing, ain't funny anymore -- Richard Schickel> <I am telling you--there ain't going to be any blackmail -- R. M. Nixon>. It is used especially in journalistic prose as part of a consistently informal style <the creative process ain't easy -- Mike Royko>. This informal ain't is commonly distinguished from habitual ain't by its frequent occurrence in fixed constructions and phrases <well--class it ain't -- Cleveland Amory> <for money? say it ain't so, Jimmy! -- Andy Rooney> <you ain't seen nothing yet> <that ain't hay> <two out of three ain't bad> <if it ain't broke, don't fix it>. In fiction ain't is used for purposes of characterization; in familiar correspondence it tends to be the mark of a warm personal friendship. It is also used for metrical reasons in popular songs <Ain't She Sweet> <It Ain't Necessarily So>. Our evidence shows British use to be much the same as American.
