Subject: What registry paths do the different game versions use?

I was wondering where InstallPath is located for stock Renegade, TFD and 4.0/4.1. Any idea?

I believe they all use /Software/Westwood/Renegade/InstallPath, although TT uses HKCU, whereas the others use HKLM. TFD's install path is by default wrong (it does not include the (tm) suffix in the default installation directory, iirc). TT fixes the TFD path.
