<http://aircraftkiller.blogspot.com/>

Figured I'd make my own weblog. Expect to see it updated with insight into my life and how I think and live.

Post comments if you want.

Quote:

I wonder why I'm so drawn to the night like this. I cannot help but wonder what compels me to watch it in what could be described as envy every time I look out the window, or step out the door. Perhaps I'm seeing more to it than what really exists here, or maybe I'm insane? Regardless, as a good friend once stated... "Sanity is highly overrated." Makes me wonder how right she is, and how wrong I am, sometimes.

Upon closer inspection, I'll have to clean this room out again. Garbage is piling up, comes from me being uber-busy with a game modification. Surprisingly I'm making a lot of headway with it, but I'm losing a lot of sleep and whatever social life existed before this is totally erased. It doesn't really matter to me, as I've survived alone most of my life. Sure, I owe my physical existence to those around me, but I owe my emotional, spiritual, and mental development to myself only... What I'll always do is reach for the skies above, and attempt to glide through the air...

I know how you fell man

There is always an end, its just a matter of time. Sometimes its not good to look too far ahead, live a moment by moment instead...its much more less painful that way. And then again, we're here just to hunt experiences, nothing more.

Heh, thanks. My "lone wolf"- styled life gives me time to think stuff....lol you'd be amazed how much time I spend thinking the origins of existence and the meaning of life....

Me too.... I find my self drifting into that frame of mind now and then. Then i realise in the end it doesn't realy matter, and I stick on some computer game or movie where in the end it all does make sense and does matter! (I love Final Fantasy: The Spirits Within )

Hmm, here is the "Liberi Fatali" from FF8:

Fithos lusec wecos vinosec  
Fithos lusec wecos vinosec  
Fithos lusec wecos vinosec

Excitate vos e somno, liberi mei  
Cunae non sunt  
Excitate vos e somno, liberi fatali  
Somnus est non.

Surgite  
Inventite hortum veritatis

Ardente veritate  
Urite mala mundi  
Ardente veritate  
Incendite tenebras mundi

Valete, liberi  
Diebus fatalibus

Fithos lusec wecos vinosec  
Fithos lusec wecos vinosec  
Fithos lusec wecos vinosec  
Fithos lusec wecos vinosec

Here is somekind of translation:

Arise from your sleep, my children  
Your cradles shall no longer exist  
Arise from your sleep, children of Fate  
Abandon your cradles

Arise  
Discover the garden of Truth

Brilliant truth  
Burn the heavens of evil  
Burning truth  
Set ablaze the heavens of darkness

Prevail, children  
Fated day

---

---

Prevail, children  
Fated day

Almost poetic isn't it! have you played my Temple\_DM yet??

Notice something?? very powerful music isn't it i always stick music in a DM as it's not exactly like you lose a building if you can't pin point the location of a beacon.

Kool I started a portfo;io jsut after seeing Chuck Carters site nothing much on my site yet though...

Sk8rRIMuk's Online Portfolio

I spent about 2 days on this site hope you like it.

I love your site ACK reading it now.

Now that we're talking about chuck carter, not all of those wallpapers are his, he's just taking credits for them, for example, Emp battle for dune, most of those wallpapers were from some emperor movies and fansite kits

Chuck Carter. The artist that worked for Westwood, on such games as Emperor: Battle for Dune

Don't you think it was a tad more likely that he made them for Westwood, and then they were given out in the fansite kit?

Wow, some loser decided to flood my comment script with like 116 comments, then had the nerve to tell me to get a job and "Help out humanity a little bit."

That all coming from someone who floods comment scripts on weblogs.

Wow... just wow.

AircraftkillerWow, some loser decided to flood my comment script with like 116 comments, then had the nerve to tell me to get a job and "Help out humanity a little bit."

That all coming from someone who floods comment scripts on weblogs.

Wow... just wow.

funny thing i find about this.. i work (im a computer tech / webmater) I get paid to play Renegade lol. On the weekends I stay at my work where I watch the server computers, where I sit there and play Renegade because I know i have the computers work good enough that I can do so, ive been playing the weekends for nearly a year, and I only had to fix them once. ACK is human, he may have a job or he may not, but he does have feelings. and with his place for writing his ideas and thoughts I think it is kewl, i would shoe you all mine.. but its a private journal and the only way you can view it is to be part of the site. But who ever flooded his site, his NO LIFE or is very jeaouls of ACK... Thats my point of view on it.

---
