One of the things i hope for is that 2015 Renegade in its current Variation will die completly.

Seeing as only overmodded Shit is still 1 of the most played Servers, its embarassing to see the History of this Game going down the Road.

Besides that its pretty sad to know that more PPI discuss Stuff in Forums than actually play the Game instead.

Renegade has gone a long Way and many of you where at its Side in the good and the bad Times, but its time to let it go, before more of its History gets destroyed by the Way it is beeing played and looks today.

erikboxem denied it to the grave, even after 0x90 came on and called him out on his story and lies (him being the one that actually made the cheat, having the best knowledge of how it works)

then the non-stop flow of Duke Gaming supporters coming on to defend their hero community owner despite all logic and reason was a repeating series of facepalms

having to cheat to win against FnFalls/gz0ne is...deplorable at best

Most of the Players are finally sick of the godlike behaviour of many of the current Server Mods/Admins. Sooner or later they switch, and hopefully that time has come now 2015. Sad for Renegade, but the way it is now, it is better to die.

I never said unmodified, but overmodded like MPF lately is totally garbish, i liked the Settings of Atomix,RC, and st0rm, and most likely MPF before jimer left the group and it was took over completely by modders.

Got falsely banned last year on MPF,for some reasons other Servers took over the ban, who knows why, since then i couldnt play under my regular nick, but to be fair, i havnt also played much, other games kick more than Renegade in its current version.

We never had him banned in Rencorner. MPF wouldn't share their proof, so, no ban.

Which is pointless anyway, I wiped the ban/mute/forcett list on January 1st.

The only mega cheater we've had recently is BodBoy, using VPN's and his latest cheats.

I am amazed DJ has one friend in Ren. lol.

The proof was solid on you DJ. I would have loved to release it but it would disclose how we detect. DJ your not that big of a deal that MPF would ban for no proof. If you didn't cheat you would be muted so you would be handled either way. Your just too much of a pussy to admit you cheated because somehow Ren is the most important thing in your life and it would destroy you.

Playing other games? LOL you wouldn't still be posting here if you were playing other games. In addition you have no friends here DJ so you obviously like abuse so you do post. Oh wait, there is one friend here finally after 2 years.

DJ you so cry a lot. You so react to my posts. You spit on your computer when you type replies?
lol

My how I have so effected your life. Yeah all my fault you cheated. All my fault no one liked you at any of the com's except your German buds. You blame me for so much LOL when in reality it was all you and very little me.

Area54, you want to bring that up again?? But DJ you are so skilled how could you have run into someones Apache? Your a douche dude, you IPDB'd in IRC (like you did every player because you watched IRC admin channels while you were in game) and thought it was me based on the results. (I know because I saw the IRC admin logs) So with your new mod power surging that Padi gave you and with the hate you have for me, you came after what you thought was me and ended up making a fool of yourself as always. Once Padi came back and realized his mistake giving you power, he removed you. Yep all my fault again. My fault on you getting removed at St0rm (3 times) and MPF (I believe 3 times as well).

Blame me for all the fails you have with women and life in general too dude?

Lastly you want to run on ACK's shirt tail thats your mistake. He makes shit up to try to get at me, which has failed miserably on each try as your efforts do too. Get over the fact I was liked - respected and asked to be an admin at several communities since 2002 and you had to stick your nose up owners asses to get the few positions you got since you started ren in 2008, well after its best days.

I'd probably use a different word than prick in this sentence. Personal preference, but I wouldn't want to associate a word that's slang for dick when talking about something I eat

lol the call of the virgin

idk for some reason i dont care about renegade i dont join irc, i dont join TS i don't play the game, but i still accidentally click this bookmark once in a while. fun to check out the latest drama since you guys will never have anything in life outside this game. i have never seen a bigger collection of rejects than the people that call jelly home. it's amusing.

specifically kids like liquid, ethenal, kesler, slosha, xpert and tlkill for those that are easily offended.

there's my reasoning for posting ethenal. now don't get too butt hurt lol
