I'm calling your BS out DJ-Cry. It may be locked over there, but not here. Biggest whiner in Renegade history and you only played like what 3 years now?

Fukin eh, you actually rage posted on RC forums about being TC'd with 4 players in game 47 seconds into the new map????

O  
M  
F  
G

Really? 47 seconds into a new map the game goes 3 on 1 and the mod TC's you to GDI to even it up and you RAGE!!! LMFAO!

Whats even better is you claim you were in the gdi ref!! So its cool to attack 3 on 1??? That how you roll in Renegade???

It's all about you isn't it? Don't worry about the poor GDI player 1 v 3.

You feed your ego off creating drama and being an all around dick, feed off this post you POS. Fuking cry baby.

The mod action was spot on you n00b. Within 7 seconds of going uneven, I say awesome mod work. 4 people in game and 47 seconds into the map and you wanted to be "asked" to TC?? Fuk U. You freaking pussy you should have TC'd as soon as the GDI player left. Any "pro player" would have. No one would have cried about being TC'd, only you.

Now because of you the rest of the players at RC lost 2 good mods to protect their gameplay. Be proud you POS.

Just stop playing, you are a convicted cheater (and not just by MPF), you bring nothing to the game, and no one wants you around. You cry-rage when you get killed and because you can't cheat anymore you hide all game to try to get a K/D like trist, serenity, or any pro sniper would get playing normal but you still get owned.

Sleeeeeeeeeeeeeeeep you troll.

wtf i never hid

also the mod action wasnt spot on at all, it was terrible moderation and im glad there arent mods anymore

its always being protocol to ask people to change and not force them too (theres a reason theres a !tc command that the public can use)

if anything the mod changes teams if deemed unfair but that didnt happen because destroyer is busy trying to cyberfuck mintshake

dj might be a fucking retard but he wasnt wrong, if anything you're acting like dj right now wyld

There were 4 people in the server trist. Be serious 4 fuking people. You wouldn't have cried like him or even posted.

Quick action kept the one GDI player in the game. Then the mod knowing it was DJ, you really think asking him would have made any difference? Your dreaming if you think it would. 7 more seconds and the GDI player could have left.

I could never act like DJ lol, no clue how. I'm pissed about this and I'm in his face, so yeah deal with it.

Although I knew they would surface, I didn't post this for other opinions as I don't care about them, looking for the tard to answer.

It would have made more sense for the mod to change themselves over rather than another player - taking one for the team sort of thing

With that being said, I agree with tristt about running to the forums being a bitch move - you have to keep in mind that he is a bitch and always will be, and he was probably throwing a temper tantrum because he was afraid he would lose

The past had shown DJ doesn't take losing so well

Even our german fruitcup DJ is entitled to some fairness.

Destroyer and Mint: I can understand their thing there, been there, done that...and it IS hard to stay impartial 100% on some things when there's e-love involved. They didn't get removed, they resigned, and tbh that was probably the best thing to do(for us in dealing with the whole clusterfucks). Frankly, Destroyer had been a big part of RC: he was a Ren admin at one time, KF admin, rented a server from us. Even when he wanted to quit as admin in both areas, we kept him on out of loyalty...if he ever wants them back, he'll have it.

Keep in mind, I made these rules 07/08/2013, Rob had to expand the Balancing teams part 2 weeks later...so the bit about "stacking teams" doesn't exactly apply as much since we use WhiteDragon's squads add-on that keeps you on the same teams.

These are our Mod rules for Renegade:

Toggle Spoiler

[quote name="shaitan" post="21224" timestamp="1373318841"]

Moderator Rules

Ask the people first who wants to teamchange, if noone does, bribe them with your money. If all else fails, use the !teams command, or !forcetc the last place person(if it is really one-sided(3 or more players worth)).[/\*]

If you deem the map is too stale-mated or one-sided beyond repair, ask players if they want to !gameover or !poll suddendead(Full Moderators and higher have access to !fds suddendead).[/\*]

If you need to halt a poll because a player is abusing the commands, then do so, and !shun them so they cannot make more polls(or any brenbot command, don't forget to !unshun later). EX: a player polls 5 times trying to sneak one through during a rush.[/\*]

Use the !warn command(over a kick) if you need to for unruly people.[/\*]

Use the !forcett command over a ban if possible(for non-4.0 scripts users) for cheaters.[/\*]

When placing bans, be sure to check their serial/ip range, so it isn't a regular player who gets

caught up in a ban. EX: serial c4993fb2edacd8f6dbbbfd07ea894eb6 is MOP030B and we try to ban the cheaters with RCBOT scripts, so as to not ban MOP030B as well.[/\*]

If a player is blocking the harvester and they did not get their team's consensus to do so, you may kill it, or warn that player if necessary. Full moderators have access to the !fds killharv <team> command.[/\*]

If you have to !atm someone ingame when no moderators are around, make sure it is someone you know will be trustworthy. Else, it'll be on your head if they mess up big.[/\*]

Do not ban someone for being AFK. If it is a repeat offender, bring it to the forums.[/\*]

Do not kick moderators who are AFK, not unless they have been so for long periods(2-3 games) and are really hampering their team by not being active.[/\*]

Do not qkick, kick, ban, forcetc, forcett, mute(or any other command) to end an argument with a player if you had a part in it. EX: baiting someone and whipping out the !mute ingame.[/\*]

Do not stream a bunch of abuse at players. The normal trash talking is ok.[/\*]

Do not perform glitches in the server. Do not cheat in the server.[/\*]

Do not use !fds revive(building name here) unless over 3/4 of the server populace agrees upon it. EX: someone glitch abuses a building and screwed the whole game up.[/\*]

Do not stack teams.[/\*]

Do not use your "powers" against another moderator during a verbal fight. Not unless that other person is clearly breaking a major server rule(ex: cheating, abusing other people for no reason). Bring it to an Admins attention or the forum.[/\*]

Do not kick/ban people from irc channels or teamspeak channels for the fun of it.[/\*]

Do not abuse ANY powers given to you, they are given to you to enforce the rules and permit fair gameplay throughout the servers, not for your own fun or enjoyment.[/\*]

\* Rules can and/or will be amended at anytime if a particular incident calls for it.

\*\* Shouldn't have to say this again, but what goes on in our moderator sections(forum/irc/ts) stays in those sections.[/quote]

The part about balancing teams is further explained upon in another topic when we had some repeated issues:

Toggle Spoiler

[quote name="Volcom" post="22125" timestamp="1374527407"]Apparently this was needed: In the event teams become uneven1 it is the moderators responsibility to request a player be changed. If they cannot find a willing player to change them may offer them a !refund2 to change sides3. If there still are not volunteers it is the moderators duty to change team themselves. If the moderator is on the minority team, message the person with the least amount of points on the opposing team. Tell them they are being moved and then refund them 1000 credits. If there are two or more buildings dead or the game is indisputably going to end within 10 minutes or less the moderator can leave teams how they are and end the game. If the moderator fails to follow the above they can be punished, demoted, or removed. 1. Uneven being defined as one team, be it GDI or Nod, having two or more players than the opposing team.2. !Refund not to exceed 1000 credits.3. Please use !forcetc to make sure the player keeps their credits.[/quote]

The guy is a dumbass every waking moment of every day - that's why I'm asking  
Did you make him a moderator? You should be ashamed of yourself if that's the case

And for the most part, no - there were few instances of mods doing stuff like that at Jelly  
When and where it happened people were spoken to and the situations were addressed, but no one would be demoted for a situation such as this one (team changing someone else instead of themselves is seriously not that big a deal)

If he wouldnt have acted like a totally asshole afterwards and said atleast sorry for missmoderating i would have proly forgotten it already. Instead he acts like a little Child now afterwards, i.e. hes Teamhampering me with his fuckbuddy mintshake whenever we are on the same Team, pushing me into open with Apc and such. Im pretty sure this isnt the last time i had to mention his name if this goes on. Sorry for that.

I think you're confused DJ, we're talking about HeadSh00t atm.

I knew what he was like before being a mod, he was in the OSTK clan once. I talked with TmX mods before I added him(he did some mutes and shit of that nature, but overall he had a good record there).

One of the incidents that comes to mind where mods fucked around with their status and abused their positions on Jelly was really led by Xpert, and I wasn't going to bring it up at all but he popped up in the topic anyways  
Action was taken so it couldn't happen again in the future, and temper tantrums were thrown

H3adSh00t is from Romania or somewhere around there because T0RN made a gypsy reference on IRC once and the guy went 100% postal

The funny part was T0RN wasn't even talking to him

Are you sure he was in OSTK before? Or that he actually succeeded at being a mod elsewhere? What DJ said lines up completely with how I'd expect him to act, based on how he always was in the past

Here's the card I made for him in 2012
