on a program to write?

im bored and while im uploading all these new models to ModX i wanna write a program.

c'mon, gimme some ideas......

anything you can think of...........

LaeubiWrite 3ds exporter for Renx / Gmax

How about a .gmax importer for 3d studio max.

id like a w3d exporter for 3ds max cus then it would be alot easyer to make models in 3ds max for renegade (then you didnt have to do the export to .3ds and import it in gmax and everything)

Cebtid like a w3d exporter for 3ds max cus then it would be alot easyer to make models in 3ds max for renegade (then you didnt have to do the export to .3ds and import it in gmax and everything)

Yes thas what sk8r said..

Same here I say go for gold and make a w3d tool for 3ds max.
