I cant see the kills because that metal texture is on top of the kills text. Does anyone have a fix for this?

I made a message background a while back for myself thats the same as stock but without the weird white borders on the side. Makes it easy to read both the chat and the playerlist.

Thanks people. Yeah the one with the dark background for the text still there is the one I used.

Yeah I was playing on RenCorner for a bit, shaitan was asking about the building revival plugin.
