I will post a link for all to download a finished copy of OCG here as soon as my apache server stabilizes. I'm currently playing planetside and could care less for this game. As it stands I was banned from n00bstories for calling c4kitty a retarded bitch, then posting a link to a picture of a transexual, which I thought was hilarious, but seems you people have no real sence of humor. SO as one of the original Counterstrike aimbot creators (I made 3 aimbots, one with wall hack that is still undetectable) and now I guess me and my mates will finish the Renegade one...and for what? Because some 12 year old admin chose to ban me rather than remove the link in my post. Will reply soon.

You seem to forget that children have access to the internet, and those forums. When you go around posting porn in a public area, you're not just going to get a deleted post. It's called "Doing our job", idiot.

Lamer. Liar. Fake.

Imortal SO as one of the original Counterstrike aimbot creators (I made 3 aimbots, one with wall hack that is still undetectable)

"and you must be so proud"

To think - if this is true - you use your skills in programming "hacks" in order to cheat - so you can win against players that are more skillfull then you are actually playing the game straight...

ironic twist - don't you think....

I believe the Renegade netcode is checked and processed well enough that such a thing would not work unless the host had it.

Lol, your lack of intelligence makes me laugh, ha ha haha...

A n00b is someone, either new or not, who does idiotic, stupid, lame, etc. stuff to ruin a game or the experiences of others in that game.

Wow, he completely matches that description, and then some.

Homey! thought that meant ingame stupid stuff. Still, hes a beta player then you ever will be.

Lol.. So where do you think they use aimbots at? ingame Dumbass. Using an aimbot would ruin the game for those who don't use aimbots.

Just because he can install an aimbot, doesn't make him good at the game.

If he was actually any good at playing the game he wouldn't have any need to make an aimbot would he?

14 year old Admin, actually.

You do not have, and no-one else has, any reason to post that on the site, at all.

So you think I'm a Nazi Admin because I do my job? Cry me a river, still won't get you back.

Just as a note, I could care less about who thinks he is good. If he posts shit like that ona forum I have access to remove it and him on, I will. Also, this admission of being a hacking SOB, and for threatening the game we all love... my ban was justified.

Homeyimortal will own any of your asses in renegade. Just because someone does something bad to the game doesnt make them a n00b, an idiot or stupid but not a n00b dumbasses

actually - your incorrect - ruining a game is the ultimate way of showing how much of an idiot you can be.

This is similar to the IDIOTS who run out and buy the game and the cheat book - breezing through the hard parts because their little, bitty minds cannot complete the maze.

Or the IDIOTS that are so unskilled - they make maps that gives them an advantage over the other players.. (which is the current rage on Generals - maps with 1000+ crates on one side - and the other is dirt poor)

Also - IDIOTS will run out an buy cliff notes because they cannot figure out "Hamlet"

so - by my definition - it is pretty IDIOTIC to make something that ruins gameplay.

An if he is so skilled - why bother with CHEATS?

"Just because you can do something - doesn't mean you should do it"

i'm pointing out making "cheats" for a game is cheating - no matter if you use them or not.

as he said

Quote:SO as one of the original Counterstrike aimbot creators (I made 3 aimbots, one with wall hack that is still undetectable) and now I guess me and my mates will finish the Renegade one

once you claim to make one - no one will really think you as good as you say you are - they will always have in the back of their mind - "He said he made a cheat aimbot -- that's why he's this good"

- it's similar to the claims people made "steath skins" that allowed a sniper to hit from across the map -- until several of us actually tested and found that it wasn't true...

but still - people said they would do anything to get an edge over other players - be it a "clickbot" - "aimbot" - or right out hack to actually win - and anyone helping, creating, or passing garbage like this around - is a CHEATER in my book,

this of course is IMHO - so do with it as you will...
