I think they said Hind will have a powerful machinegun and missiles

I think they should have a yak-36 (russian VTOL jet) for the Soviets because in RA tgey had good aircraft, I want to see more than just the Hind and chinook as flyable Soviet aircraft.

Hind = Transport, carries a two kind of missle, and has a machine gun.

The Soviets designed the Hind as a flying APC, with armament.

I think they should have a yak-36 (russian VTOL jet) for the Soviets because in RA tgey had good aircraft, I want to see more than just the Hind and chinook as flyable Soviet aircraft.

You can propably see Yaks, MiGs and Badgers in action, but you can't fly them.
You might be able to call them with Airstrike Flare Beacons, but let Aircraftkiller have the final word with this.

Did you forget your grammar?

The mod does work, if you follow the instructions carefully

Totally awesome! The Soviet Mi-24 Hind is my favorite non-US helicopter. Nice work! Can it hold 10 troops just like the real one?

i like renegade as it is

You're not changing all the files. You're changing one file. And all you have to do is rename it. If you ever feel that this other file isn't doing you justice, delete the file and replace it with the original. It's not that difficult.
