Before I got Renegade I was playing Red Alert 2/YR, StarCraft and Quake 3 Arena. I was modding Quake 3 Arena mostly (still on the same mod that I've been working on for like a year or so), and Half Life, and was doing some on RA2/YR for a little...

I was playing Black & White and Startopia but it was because I got broadband that I decided to download the multiplayer demo of C&C Renegade that I ended up buying the game. I didn't start playing RA 2 until July last year.

PS: Starcraft Ownes every game.
