Hello Im NeoX and I would like to let the Renegade Community to know that im starting a modding team to work on serveral little mods for renegade we may just do maps for renegade or little things atm because as you all have noticed modding for renegade is basicly DEAD sadly. So I will still contribute by me and my team making maps.

If you would like to join my modding team email me at neoxmatrix@hotmail.com

or post here in the fourms we will be branching off into differnt gamesaswell but will first start with Renegade Mini Mods and maps Thank You!!!

Please Reply

NEOXMATRIXbecause as you all have noticed modding for renegade is basicly DEAD sadly.

Do you not read any of the threads in these forums? Renegade Alert... Several maps by various people... modding for renegade isn't dead. You just don't pay enough attention.

Well as you remember we talked, I sent you an email of my schedule and I am getting all of the RenX stuff as I write. I will probably be learning Renegade Editor and GmaX all this weekend and all next week. I hope to know enough to start by next Friday, and the rest I'll learn as I go along
