For the non-flying version of Glacier with a *lot* of improvements, custom textures, and various other fixes, head to <http://www.cncden.com>.

Now, visit this:

<http://renegade.the-pitts.net/index.php?act=ST&f=2&t=2402&s=8238aad6c678ee970febc29fc5493a92>

You'll find screenshots of the development of Bunkers. I decided to remake it and turn it into a Tiberian Sun kind of map, custom textures and all.

The newest screenshots are on page four.

Hmm a slight problem. I was playing this map on moonlightshakers tonight and we came across a problem. It seems as if the GDI beacon pedestal in the infantry barracks doesn't work. I am quite sure of this because Nod nukes it 5 times, even once with 2 nukes, near the centre of the pedestal. Just making you aware of the problem if you didn't already know.

The map is excellen though, the new textures, sounds, vehicles and destruction animations work well.

_General Havoc

As I told you in the Pits, this map is by far the best I've played. It is beautiful.

I'll be honest ACK, every map I have ever played that you made I've hated, with a passion. But this, this looks nice... oh yeah... nice
Good work.

Ok the MRLS with the rotatable turret is cool. The price is also cool with it. But why is the Artillery also priced 700? There doesnt seem to be any different with the original one... Oh yeah... nice map btw!

Pay more attention. custom textures and various other fixes falls under the improvements category.

I was simply asking for types of specific improvements. Apparently I hadnt played it at the time. But hey Ack I tried it NOW and its pretty good. Not forgetting the fact i had a higher fps than glacier flying is also great.
