Due to web space runnith unnith, I can post some pic's of my latest map here,
<http://www.cox-internet.com/kleboeuf/sc.html>

but the best thing for you to do is to just down load one and see what it's like and if you like it, down load another one, the links are all below.
my favorites of these would be the first two. I have other's as well, I can show you buildings I've done if your interisted as well.

I liked Snipers Canyon, but if u was to work for warpath, the maps u would have to make are of alot of quality, i need to see other peoples work aswell.

CNCWarpathI like Snipers Revenge, but if u was to work for warpath, the maps u would have to make are of alot of quality, i need to see other peoples work aswell.

I understand, and would do the same thing, but do have to say this. If you liked Snipers_Revenge, then you might like The_Final_Conflict much better, it has so much more to it, and is the updated version of Snipers_Revenge. And if you liked Snipers_Canyon, you should get the updated version, it was just released up last night, so don't know yet when it will be much, much better.

Also check out some of my other maps. Below. See what you think. I'm currently working on a BF42 map. With my own buildings, and other cool stuff, it will prob. be called C&C_BF42.mix. Just so I claim the name now.

We do need another mapper yes but maps are worthless with out the buildings it is a huge bitch to make a map if you don't have the buildings even worse don't know what they look like.

I can't see how we are going to have the internal beta done with out the buildings.
