I would type it all here... Actually... Lets see If I can Copy and paste.... *Take From site* :

Fr33dom.com stands by our president, and our troops.

Im sick and tired of these pathetic anti-war hippies going around bashing our troops and our President. If you don't like it, get the hell out, and stay out. We don't want/need/care about you. Go bitch and moan all you want about how war kills. What WILL kill more then war, is when Saddam uses his Weapons. To think they DON'T have weapons simply means your ignorant. Ignorant and Patheticly Oblivious to whats going around in the world. You say they NEVER used weapons. Well, what about the Mustard gas during the bloody Iran-Iraq War? What about the time The Nerve gas VX was used on the Iraqi population. What about then? What about THERE death.

Oh wait, you don't care do you? You just want to excersize your freedom of speech. Well, here is a surprise for you, SOLDIERS FOUGHT FOR YOUR FREEDOMS!

Then you go on and on about how we used two nuclear warheads on Japan. Did anyone tell you how the only other way was to invade them from the shores, and that this would create over 500,000+ casualties? Did anyone ever tell you we told him the first and second time to give up, and that we would do this... God, we even told him where and when. He did nothing, and let us drop the bomb.

Now, lets say we do drop our guns, and replace them with nice flowers. Yay! Woohoo! Peace! How great! Wow, you just got shot by a invading army. Oh yea, thats right, the US isn't the only country in this world, is it? You think everyone would just drop their weapons? Nah. And if we were the only ones to do it, we would be invaded overnight. All those wonderful freedoms you enjoy would go directly to jail, you would not get to post to your website telling how bad your life is, and how bad this new goverment is. No, you wouldn't even be able to stage a protest. Well, you would, but you would be killed on the spot.

Before you go off ranting about how much our president sucks, and how war sucks, think of what little other options you have.

arrogance and ignorance go hand in hand...people that protest the war are using their rights for the exact reason they were given them. Some of them are less than informed...but that's true on both sides. I'm sick of this Nationalist policy of "you're either with us or with the terrorists"

no one is by any means saying "lets lay down our defenses and when an invading army comes to attack...lets let them have it." Just because our country goes to war...that doesn't mean we have to agree with it.

remember, it's their, not there

Duke of Nukes I'm sick of this Nationalist policy of "you're either with us or with the terrorists"

"You're either with us or with the terrorists" applies to the broad idea of the US vs terrorism. It doesn't go beyond that. Go ahead and disagree about how to get rid of terrorism, but don't support terrorism.

It's really meant as a wake up call to countries that are 'friendly' to the US, but support terrorism against us. It's to let them know they can't have it both ways.

I would edit someone's mistakes before I post a quote no one else heard yet and claim I stand by it.

And if we go back much of what you quoted has been argued to death so I have nothing to prove

by putting a match under it. But I won't stop someone else from bringing settled discussions back to life. I will be glad to put forth new arguments on these subjects if you give me something to prove.
