The veteran is back! Unfortunate as it may be, heh heh heh!

Now, down to business. I know Renegade and its soundtrack came out over a year or two ago, but this has been nagging me for some time. I got the music soundtrack for preordering the game and noticed something seriously wrong. There are 15 tracks on the CD when only 14 are labeled. The sixth song has no title. Its time does not match any other song labeled on the back of the case. Anyone want to clarify the sixth song's title?

Dude, there are no Renegade tracks there, and some of those tracks are named twice. Was Tiberium Dawn a mix between the original C&C and Covert Ops?

Commander A9Dude, there are no Renegade tracks there, and some of those tracks are named twice. Was Tiberium Dawn a mix between the original C&C and Covert Ops? The original CNC is commonly referred to as Tiberium Dawn (TD). Adn you obviously missed the Renegade section.
