Maybe. I don't know what the modification is and why would you be restarting it? Besides you need an admin to delete a post that has replies.

Yes

westwood started to make more renegades, but then I heard that EA cancelled the new renegades since their target audience is getting younger and younger. I want to drive a prism tank :twisted:

I also want to know how wilost0rm can delete the post after we have replied, as if he starts to spam, Crimson will surely ban him

anyway, I vote yes to the topic, not the author

actually according to E3, and all the global statistics, the gaming audience is getting older, like for example, one of EA's biggest titles "The Sims Online" and "The Sims" is mostly played by 30-50 year old house wives.

No.

(Oh, you cannot delete any posts except for yours, and you cannot delete your post if there are replies after it. You cannot delete this entire thread, as there are replies after your post. You'd have to be a moderator, which you are not.)

Can't take a simple question? Or are you too stupid to answer "What modification are you speaking of, and why do you need to restart it?"

Hypocrite, I thought you said you wanted everything to be either yes, or no. Loser.
