Aye seen that on planetcnc, they pointed out the key features, about staff who left to join them that were working on the "next cnc title"

More CnC games?

If they don't work with EA, then they will produce NO CnC games.

EA hold the liscence.

Theyll probably give it a new name or something.

I WANT PC COMMAND AND CONQUER WAAAAAAAAAAHHHHH!

Oh well at least it still going on. I dont think Ill ever get used to using a controller for C&C (e.g. C&C 64)

And we cant mod the games anymore. So if they make renegade 2 for console we cant expand on it
