I doubt anyone remembers me, but, I see many familiar names. I remeber ACK doing a lot of stuff. I remeber hearing about Reborn, Evolution, Ren Alert. Well, has anything come to be yet? Well, thanks for your time all...

+Ren Alert had a public beta, and is still in development
+Reborn looks the most promising and is in beta at the moment, it seems the most promising out of all the mods so far.
+Evolution i assume you mean RenEvo, check general discussion, it was scrapped today
