Everyone is racist in some form or another.

Why are you so intent against racism? That's like saying we shouldn't look at anyone. The human mind instantly categorizes everything it sees, because it recognizes patterns and remembers them. You see a group of oriental people and you'll remember a group of oriental people the next time you see a single oriental person. It's the way the mind works... It's a defense reaction in a sense. If you feel threatened e.g. by a group of black\white\whatever men walking down the street with lead clubs in their hands, you'll remember that group later when you see another of their kind.

To deny being racist is to deny being human. To deny being human is a lie.

Go ahead and live in denial... I'm a racist and I'm proud of it. I don't like Mexicans... boo fucking hoo. What're you going to do about it? I have the right to my opinions as much as you have the right to not like them... Take an injection of "Get The Fuck Over It" like you preach tolerance and let it go.

And no one seems to even care, the post just ends, i dont understand.

there is a difference between ack's idiotic beliefs(which he is welcome to) and outright insults against someone.

ack states that he is racist but does not go around saying things like "kill niggers" or "jews are evil" etc.

such statements are insulting to most of us on this board and are not welcome.

ack on the other hand simply states that he is racist while not insulting anyone personally.

Like you're doing now, I see... C'mon now, spotelmo, give me a bit of credit here. Some of your statements are pretty asinine; you don't see me jumping over them and referring to them as idiotic beliefs.

sorry, ack. while i agree with much of your opinions on alot of things, i don't agree with your views on racism and i do consider them idiotic.

i'm sure you won't lose any sleep because of my remarks, just as i won't lose any sleep due to seeing your remarks regarding racism.

but, if you are so hurt by my remarks, i will agree to apologize for them if you will agree that it's nOd not Nod.

Explain how you can see where he's coming from. I'm not trying to get on your case but that was just a pretty vague comment.

I think ack is half right. But "prejudice" would fit alot better there than "racist". Everyone is prejudice to others in some form or another. Prejudice means to judge something or someone too early, to pass judgement on someone without knowledge or knowing the facts, etc. Everyone here has done this at one point in their life. If you sterotype anyone, then you're being prejudice. For example: "He can't type, he must be stupid", "She's just a woman, she can't do anything a guy can do", etc.

no, from what i gather from ack's past posts, he is racist.
but then, that's his problem, not mine as long as he isn't coming here spouting out racist comments and insults(which i've never seen him do), then i really don't care.

I know a few people that would have some words with ACK if they were still around...perhaps you remembered a certain...PRM? I'd bet he hasn't even met a Puerto Rican...and he has all his stereotypes messed up. From what I remember...he said they smell like rice...which is just idiotic.

I haven't met a Puetro Rican? That's how I know they all smell like rice, because I haven't met any...

What a fucking idiot. OF COURSE I'VE MET PUERTO RICANS. THEY LIVE IN FLORIDA MORE THAN MOST ANY OTHER STATE DUMBASS. THEY'RE PRACTICALLY THE MAJORITY POPULATION HERE.

I'm not going down the street yelling "I HATE MEXICANS" or whatever. I simply dislike Mexicans and anyone who smells like rice and beans. I fucking hate that smell when I'm trying to walk somewhere in public... You know how irritating it is to be walking around in a city, head to the mall, sit in the food court... Then some Mexican guy sits across from you and all you can smell is rice and beans instead of the food you're trying to fucking eat!?

I wonder, if you traveled to Germany, would you be overcome by the smell of beer and kraut? I have been known to eat an egg roll or three at a Chinese buffet.... I wonder..... when I leave do I smell like a chinc? Hmmm... So ACK, I have heard... you eat tuna all the time. I wonder, does that make you smell like a fish or is it just mean you are a big p.... never mind.

I don't think ACK is racist, he is just a tad ignorant, that is all. However, sometimes we have to worry about the ignorant ones the most. They tend to spawn a lot.

Maybe this explains why ACK is the way he is:

(HealthScoutNews) -- People who are racist may suffer a temporary lapse in mental capacity after interacting with people who are members of a racial minority.

Researchers from Princeton University and Dartmouth College found that white people with a high degree of racial bias experienced a decrease in "executive function" after spending time talking with black people. Their research appears in the May issue of Psychological Science.

Executive function is a key element of thought that involves the ability to fix attention on certain, high-level mental tasks.

The study included 59 white college students. They were given a test to assess the degree of racial bias in their thinking. The students then spent time talking with either a black or a white person and afterwards were given a test that measured their ability to concentrate on a challenging mental task.

The more racially biased the students were, the worse they did on the mental task after speaking with a black person. But racially biased students who spoke with a white person, even if they discussed racially sensitive issues, had no decline in mental function.

"When you have to control your behavior, it takes a lot of energy. And if you expend energy in a social interaction, then you don't have so much left over to do something else," researcher Nicole Shelton says in a news release..

ACK...today, you are a true moron. You dont even have your stereotypes right. Puerto Ricans dont smell like rice...that's the chinese...just like how Mexicans are supposed to smell like beans. Now, logically...since you live in Florida and use the internet...you are an old man that spends all his time trying to have cyber sex with 13 year old girls. I live in Colorado so I love the cold and go skiing every day...fuck, I used to ski to school...right?

I find it funny that America still has one of the biggest problems with bigotry and racism. In Venezuela...they, for the most part, treated me like one of them. I didn't speak their language...but they were still cool. People like you, ACK...are the scum of the fucking earth.

You're trying to combat opinion with more opinion, backed with insult... Both of you are fucking retarded. I don't have to validate my point of view to two people I don't give two-shits about outside of this forum.

Duke, you don't even live here, do you? You don't know what it's like here, do you? You don't speak from experience, do you? Just like EVERY OTHER FUCKING POST YOU'VE MADE IN THIS ENTIRE FORUM.

WOWZOR YOU'VE BEEN TO VENEZUELA OMG ROXOR

ahh...did I make the baby ACK cry? Is he crying because I applied a stereo type to his sorry ass? I think he is. It's ok, little child, I didn't mean anything by it. Go run to your mommies arms and she'll protect you from the cruel world.

I am proud of my experience in Venezuela because I took every day there as a chance to better myself and help tear down the racism that I encountered in California...where as you probably locked yourself in your room and cried yourself to sleep at night. You shall recieve no sympathy for being a racist little bitch. You have already proven yourself to be nothing better than the local slut that needs to give her daily blow job to get praise and help her feel better about herself...but hey, you blow because you care...right?
