Just want to know people's opinions on this. This guy says he's very good at grammar. Now I just want to know how many grammatical errors can you find in his paragraph (or I think its a paragraph) alone.

crazzyasssand if u take wat i wrote to any english prof in THIS country none of them will find any errors u both need to pick up a book and read it and read it right cuz u read once and came up wit the idea that the word English was a decribing word which sorry makes u look like a moron in it self that u had the book in ur hand and fuckin read it totaly wrong

Remember, it's "you", not "u".

Remember, it's "what", not "wat".

Remember, it's "I", not "i".

Remember, it's "professor", not "prof".

Remember, it's "because", not "cuz".

Remember, it's "describing", not "decribing".

Remember, it's "your", not "ur".

Remember, it's "fucking", not "fuckin".

Remember, it's "totally", not "totaly".

Remember, punctuation makes your work legible.

Remember, starting a sentence with "and" (non-capitalized) is incorrect.

Remember, emphasizing a word with bold, italics, underlining, or capitalization is not proper grammar.

Remember, ad hominem is not an intelligent way to communicate.

Remember, redundancy is not palatable.

Errors (in order of appearence):

1. Started sentence with "and".
2. It is spelled "you" not "u".
3. It is spelled "what" not "wat".
4. "i" is supposed to be capitalized.
5. English is a specific language, and therefore it is capitalized.
6. It is spelled "professor" not "prof".
7. There should be a comma after "country".
8. There should be a period after "errors".
9. It is spelled "you" not "u".
10. He needed to say "read it" only once.
11. It is spelled "because" not "cuz".
12. It is spelled "you" not "u".
13. There should be an "it" or something between "read" and "once" letting the reader know what he's refering to (like "the book", "read the book once").
14. It is spelled "with" not "wit".
15. It is spelled "describing" not "decribing".
16. There should be a comma after "describing word".
17. "sorry" doesn't belong where it is in that sentence. (Maybe he meant something like "I'm sorry, but that just makes you look like a moron.")
18. It is spelled "you" not "u".
19. "itself" is one word. ("in it self" should be completely removed though.)
20. It should be "because" not "that".
21. It is spelled "you" not "u".
22. It is spelled "your" not "ur".
23. It is spelled "fucking" not "fuckin".
24. It is spelled "totally" not "totaly".

25. A sentence is supposed to end with a period.

I found 25 errors.
