I would be impressed if you could skin and model... But you can only model, and so can about a million other people online.

Learn to skin the models, present them again, and I'm sure your skill would really shine.

I just never had to skin them before, we always had a few skimmers on our mod team that I could send my models to to get skinned for the mod. I'll get the skinning part down sooner or later...

FerhagoWOW! ACK actually complimented you!

Hmmm, do I hear sarcasm?

If you'll notice in the size 18 font that it says that those models are/were for mods that weren't on renegade (quake3/halfife/etc.). Most of those guns already have skins and are already in game. (You'll notice that I said that we have people to skin them for the modelers.)

That's your opinion - though this accusation of yours is rather unfounded considering I rarely show anything I make, and it sure as hell looks better than what's normally shown here.

That proves your point how, exactly? I don't justify myself to you, because you're insignifigant and mean nothing to me. You have no relevance in my life. You have no relevance in this community. You have no real bearing or tact, nor do you have any idea of how to communicate your thoughts

intelligently - so why should I take anything you say or do as more than the ramblings of an immature malcontent?

I've already proven myself... I shouldn't have to continually do it because some 12 year old anime-loving girl thinks I'm "flaming" everyone here to hide the "fact" that I can't model or create maps.

Of course, I can't take anyone being better than me... You're a retard. I know Phoenixx is better than me in *weapon modeling* because that's nearly all he does. Almost all I do is building modeling or level modeling. We're proficient in different areas of 3D artistry and that's how we work.

I don't care if he's better than me in that area... I'm not a weapons modeler.

Of course, you already knew this, oh omnipotent one... :rolleyes:

Ack certainly does suffer from this mental disorder, narcissism, look up the word your self and

<http://dictionary.reference.com/search?q=nar%20cis%20sism>

Narcissists use everyone around them to keep themselves inflated. Often they find flaws in others and criticize them fiercely, for this further distinguishes them from those who are defective. Because of their underlying need for voice and the resultant bluster, narcissists often work their way to the center of their "circle," or the top of their organization. Indeed, they may be the mentor or guru for others. The second they are snubbed, however, they rage at their "enemy." Demands to be recognized as superior without commensurate achievements.

Requires excessive admiration, adulation, attention and affirmation - or, failing that, wishes to be feared and to be notorious.

Summarized from:

American Psychiatric Association. (1994).

The models are all finished, some of them are skinned and in-game, the renegade models and those with "ww2" in front of them weren't skinned.
