I need a free webhosting service that is really dependable and has a pretty high transfer rate. Do you know of any good, free web hosting services?

There is no such thing

Just buy one for a few bucks each month.

Quote:In addition to the above, User shall not upload onto their hostultra web space any of the following:

audio or video files of any type this includes but is not limited to .wma .wmv .wav .mp3 .avi .mpg .asf .mov (however flash and midi files are allowed);

spanned archives such as such as .z01 .rar .ace;

any binary files that are not linked to an html page on the Site;

sites which contain only (or mostly) downloadable files;

download sites of any kind, including but not limited to, shareware, freeware, trialware, demos,

warez, appz, gamez, iso, cracks;

photo albums or TGPs;

Thats on hostultra. So, I can't really use that, seeing as that we will be putting lots of files up for download.

This is from their web site. host ultra;

Limitations

Limitations. The Service is subject to the following limitations:

File Size. Files larger than 1 Mb cannot be uploaded to the hostultra.com servers, such files will be deleted automatically without notice to User.

and their was much more too. but this was enough for me to turn away from it.

Ok,

How much space do you need?

Requirements?

What ever it's being used for, it has to allow you to upload much more than a 1 mg file, one Meg is nothing for a file's size. Most maps are at least 4 to 8 Meg after zipped.

Well, I'm trying to put together a website for my new mod: Modern Warfare. (
<http://66.227.104.254/~crimson/viewtopic.php?t=5084&start=0>)

I need to be able to post alot of pictures, a good amount of downloads, (a whole mods worth), and there will be a large amount of traffic.

Any suggestions?

I am also looking for a Web Designer for the mod. Someone who can make a cool mod site.
Thanks.

-Maytridy

If you need space to host a mod for a cnc game, i can host you free.

<http://whatever.cncdownloads.com>

No limits
