U were there that last game?

My F'n Team sucked.

I repaired the whole time....Never really played.

They blew the airstrip b4 i got a chance to get a 2nd vehicle.

EDIT...Renabttle is full of N00bs....then again noone knew what the hell was going on they never played b4... they could of repaired after i spammed for 5 mins

The Pits will be a nice place to test this map out.

Renbattle is a nice server....but it will be a month b4 they know how to play out this map
