ok, i cannot get onto WOL since yesterday.
I have reinstalled the game, i had no .pkg files in my Data folder and tried the game straight after i installed it (so without all my skins ect) and it DIDN'T work.
Could someone please give me some ideas of what might be causing the problem, and some solutions?

Because GSA is driving me NUTS!, there are heaps of n00bs on there.
oh and BTW: the so called "way" to win a game on GSA is to MAMMOTH TANK RUSH! lol.

Thank You.

Yup, GSA people generally suck.
Crimson has her sniper server up on GSA now, so you can join from there.

Hope you can get WOL working again.

GOOD, because the only sniper servers require the sniping versions of the maps, and i cant find them (they are not on ammo or renmaps).

and i cant get on to crimsons sniper server.
I get auto kicked everytime.
I thinks its because i used the end game beacon when no mods were there and they were beaconing all our buildings while we were sniping

thanks

IMO, the only GSA server worth using is renbattle.com. The rest, as you say, are filled with fools.

Do you mean my Sniper Maps? They are on renmaps. Here's a link to my stuff on renmaps.

Just scroll down to the Snipers Only Map Packs.

Got the names of these servers? or do they all have a prefix like [WS] or something because at the moment i haven't seen any WOL servers in the GSA lists, well not that i know of, the names of them would help.

Demolition manuse All seeing eye not GSA.... Want a link? google it.

Yeah thats what i use, it is much better than GSA and it takes up less resources and also no adds. Also it's filters are superior to that of GSA.
