We of course got their refine, then regrouped and got their ob...

But here's the kicker, we lost

Oh that is nothing.....there was a 126 back not so long ago that ACTUALLY COULD HANDLE THAT MANY PEOPLE! It got up to around 99 and on under, and it honestly with 1 minute left, went up and down up and down(the score). With 10 seconds left, only 5 points difference between the lead, the server shutdown . Crimmy was there...now that was crazy

Ive seen alrge gunner rushes. Ive been in a 100 person server that ran smooth and had no lag. That was great.

How the hell is that possible? I once remember that I was in 40 people server (it was one of bygames) and it had almost no lagg, but still some lagg.

They didn't. And, I have no idea why you would speculate that they did.
