I met a guy named suprpee1. This guy is a complete idiot, I honestly this guy is a waste of brains and should honestly be shot. He walked around with his favorite weapon the blue beam of death aka his acid ray. I was defending the refinery on Field. This idiot walks into my proxy's and tells me I'm a noob and a cheater because I made the ground explode....anyone had any of these recently?

I know this should be on n00bstories, but still this is too bad for that. Ban him immediately if he enters your server....

Might sound stupid, but I hope some n00bs will always stay, they can provide a good laugh and fuck it when they screw a game up... its only a game.

Isn't it always like that, when you have this really idiot n00b in your team that screws everything up... you always find yourself at the end laughing at the stupidity?

Its always great to have some n00bs, the world would never be the same without them...

LOL, I "fought" against him yesterday and he called me a cheater because his "Blue beam of death" didn't hurt my Raveshaw when he shot me. I kept telling him that it was a repair gun but he kept saying things like "don't make your cheating so obvious" Thanks to him I was able to kill 2 Havocs and another one who was trying to kill me. This guy deserves the n00b of the month award.

I can make youDemolition manphear the blue beam . PIC

But seriously, I mean even when I picked up the demo I realized RIGHT AWAY not to use the engie's gun on enemies. Without even shooting it at them.
