today i was playing on a 10 player server and a person with the name rata83 joined on my team,so the first time i see him hes` just ststanding in the power plant doing jack shit while its being destroyed,i go in to repair it and disarm c4 on the MCT and he starts shooting at me,then stops,then shoots me once more in the head and kills me (ff was on).
in the mean time the pp gets destroyed because i wasn`t in there and he goes back to doing nothing!!
after i page him asking him why he shot me his excuse is "i thought you were nod"
