I bought renegade put it on my comp but then I had to format my HD. and when remembered to reinstalled it I found that I had lost my DATA disc. I was mad cause I though I couldnt play anymore but I just tryed anyway and It worked I installed the entire Renegade game with just the GAME disc. Then I was worried that it wouldnt let me play and sure enough it let me in the game with just the GAME disc... So I ask u WHAT IS THE DATA CD 4?????????

It is the disk you play the game with.

To play online, i believe you can use either CD.

To play the single player campaign, you need the data CD only.
