In game, I am unable to see the roof of the level, wich makes me unnable to see things like airplanes or buildings rising over it.

can you help?

Have you tried changing your configuration????

Put everything on LOW at your settings, and then try again, are the roofs coming back???

Or is it maybe because changed some setting so that the mouse wont look up??? :\

I think its just something in your settings, sorry that i cant give you more details, because I dont have Renegade installed at the moment.
