Look at what I found 3 trainers for renegade the +2 trainer makes it so that in game if you press F10 you get infinite ammo, and if you press F11 you get infinite Health, no I did not run this trainer on my game, I read the read the .nfo documents

The other 2 trainers I don't give a shit about because they are for Single player only, but I was still wondering if the +2 trainer works or not?
