I've been seeing alot of visual basic utilites for renegade latly

Im pretty expienced in visual basic execept for sending commands to programs,apis and such

how would i send commands(jsut a simple text message for example) into renegade

<http://www.vbcode.com>

<http://www.planet-source-code.com>

both will show you how to get the hwnd for any "forms" text boxes etc... and allow you to edit them easily.

for instance, you can edit the text in a popup window in renegade (team chat, reg chat). that is how autocomplete was made.

xSeth2k2xwhat would i searhc for?

You would search for exactly what Dante suggested at planetsourcecode.com

---

Danteboth will show you how to get the hwnd for any "forms" text boxes etc... and allow you to edit them easily.

for instance, you can edit the text in a popup window in renegade

Just search for hWnd, you'll get plenty of results.

heres my code(its jsut suppose to detect if renegade is open)

```
Option Explicit
Dim RenStatus As String
Private Declare Function FindWindow Lib "user32" Alias "FindWindowA" (ByVal lpClassName As String, ByVal lpWindowName As String) As Long
Private Declare Function FindWindowEx Lib "user32" Alias "FindWindowExA" (ByVal hWnd1 As Long, ByVal hWnd2 As Long, ByVal lpsz1 As String, ByVal lpsz2 As String) As Long
Private Declare Function SendMessageSTRING Lib "user32" Alias "SendMessageA" (ByVal hwnd As Long, ByVal wParam As Long, ByVal lParam As String) As Long

Private Sub cmdOpen_Click()
Shell "C:\Westwood\Renegade\Renegade.exe"
End Sub
Private Sub tmrRen_Timer()
```

```
Dim IRenegadehWnd As Long
Dim RenChecked As String
```

```
IRenegadehWnd = FindWindow("Renegade", vbNullString)
```

```
If IRenegadehWnd Then
```

```
    lblRen.Caption = "Renegade is OPEN" 'Renegade.exe Is Open
```

```
    RenStatus = "Open" 'Tell it Renegade is Open
```

```
    cmdStart.Enabled = True
```

```
Else
```

```
    lblRen.Caption = "Renegade is CLOSED" 'Renegade.exe Isn't Opened
```

```
    RenStatus = "Not Open"
```

```
    cmdStart.Enabled = False
```

```
'-----'
```

```
End If
```

```
End Sub
```
